

OFFICE OF THE MAYOR

April 4, 2024

Columbus City Council and Columbus Neighbors,

Our city's zoning code is broken.

Written more than 70 years ago – when racist practices like redlining and slum clearance were part of the urban planning playbook – our current code is exacerbating inequity in our community. It's preventing our city from rising upward, and pushing our growth outward. And it's making development more expensive than it needs to be.

Our residents are suffering the consequences.

A lengthy and convoluted process is driving up the cost of housing and preventing some homes from ever being built. It's shutting out small investors from building in our neighborhoods. And it's exacerbating our housing crisis as we watch homelessness, housing displacement, tenant exploitation and evictions all trend upward.

To keep pace with our growth, the Columbus Region must build 200,000 homes in the next 10 years.

Columbus must do its part. Modernizing our zoning code is one of the most powerful things we can do to change our trajectory, today.

Following, you will find a groundbreaking proposal to modernize our city's zoning code to support our region's housing, mobility and affordability challenges while fostering quality development and sustainable growth.

Based on adopted neighborhood and area plans, two years of technical analysis and engagement with thousands of residents, the proposal shows how we could create new mixed-use zones on 12,300 parcels of land along Columbus' busiest streets.

Presently, these parcels are projected to support the creation of 6,000 housing units, but through market-driven parking strategies, permissibility for taller construction and through a clearer and more navigable process, capacity analysis suggests the proposed code could unlock the creation of 82,000 additional homes.

Through this proposal, we could create 88,000 homes – 44% of the region's housing demand. This would offer a significant solution to the region's mounting housing pressures.

OFFICE OF THE MAYOR

Residents have told us that they want to live in dense, vibrant neighborhoods where they can easily walk or take transit to a coffee shop, corner store or a new job opportunity. By building taller, denser buildings that combine housing and commercial uses along the primary streets of our neighborhoods, we can accommodate our housing demand, grow our use of transit, support new and existing businesses, reduce energy consumption and reduce household costs.

With Council approval, this proposal will be presented to our community for public comment. We need to hear from everyone to understand how to further calibrate this proposal, in order to get it right.

I look forward to reviewing the feedback from Council and our community, so we may continue to advance this proposal together.

Together, let's "zone in" on this chance to grow not just bigger, but better.

Sincerely,

Andrew J. Ginther, Mayor

Proposal for Modernized Zoning on Columbus Corridors

Proposal Summary

THE CITY OF

COLUMBUS

ANDREW J. GINTHER, MAYOR

Let's Zone In on Equitable Growth

Columbus is a city on the rise. We're experiencing record job creation in the region, which is creating economic opportunity for longtime Columbus residents and welcoming newcomers to our city. From 2010 to 2020, Columbus grew by 32 people each day – people attracted by great jobs, affordable homes and our high quality of life.

Unfortunately, we're seeing other things rise, too. Homelessness, housing displacement, tenant exploitation and evictions are all trending upward, because regionally, we're not building enough housing for everyone who lives here and for the families who are coming.

We must build 200,000 new homes in Central Ohio in the next 10 years to stay on top of our housing needs.

Columbus must do its part. Modernizing our zoning code is one of the most powerful things we can do to change our trajectory, today.

Our zoning code is more than 70 years old. It's preventing our city from rising upward, and pushing our growth outward. It's shutting out small investors from building in our neighborhoods. And it's making housing more expensive than it needs to be, limiting neighborhoods from their potential.

Residents have told us that they want to live in dense, vibrant neighborhoods where they can easily walk or take transit to a coffee shop, corner store or a new job opportunity. By building taller, denser buildings that combine housing and commercial uses along the primary streets of our neighborhoods, we can accommodate our housing demand, grow our use of transit, support new and existing businesses, reduce energy consumption and reduce household costs.

A modernization of the zoning code can unlock such construction and direct our growth toward a more equitable future.

In the following pages, you'll read about a proposal to holistically update our zoning code along our main corridors to address our housing, mobility and affordability challenges and support quality, sustainable growth.

If we continue on the path we're on, our corridors are projected to create 6,000 new homes. But if we update the code as this proposal suggests, the market will realistically create a projected 88,000 homes. That's 44% of the region's housing demand and enough new homes to start to alleviate the rising housing pressures we're feeling.

It's a tall order, and I mean that literally. But it's one I know we're ready to embrace together to promote a more prosperous future for everyone.

Together, let's "zone in" on this chance to grow not just bigger, but better.

Mayor Andrew J. Ginther

Zone In *Priorities*

- Leverage corridors to create more housing in more places to help address the city's and region's housing shortage by supporting changes that make it easier and more likely to build more housing
- Support "Main Street" jobs and businesses with opportunities to grow their customer base nearby and greater flexibility to adapt to changing market dynamics
- Promote equitable development with a code that relies on clear, objective standards and is easier to navigate
- Expand the role of corridors in creating healthy, connected communities by reinforcing land use patterns that support alternatives to using a car and provide better access to jobs, education, healthcare and housing

Promoting Growth on Our "Main Streets"

A zoning code is a set of rules that regulate what can and can't be done on a particular piece of property – it influences where we live, where we work and how we get around. It can provide residents a clearer idea of what can be built in their neighborhoods, and help developers avoid unnecessary time and cost that slows down or prevents investment.

It can also help to create the conditions for smart, sustainable, equitable growth and unlock the economic and development potential of our neighborhoods.

While modernized zoning is needed throughout Columbus, we know from data, policy priorities and public engagement, that our corridors are the best place to start updating our zoning to support the growth our community needs. "Main Streets" like West Broad Street, East Main Street, Morse Road and commercial nodes like The Continent and the Eastland Mall site have the greatest development capacity to deliver

housing, mobility and employment opportunities in ways that are economically and environmentally sustainable.

Area and community plans developed with each neighborhood and adopted by Columbus City Council consistently document residents' desire to see investment along our corridors, for both job and housing creation. Studies such as Insight2050, sponsored by the Mid-Ohio Regional Planning Commission (MORPC), quantify the benefits of dense development along corridors, and the LinkUS mobility initiative sponsored by the Central Ohio Transit Authority (COTA), the City of Columbus, MORPC and Franklin County is anchored in equitable transit-oriented development along corridors. These conclusions are further reinforced by the Columbus Climate Action Plan, which underscores the environmental benefits of denser development that supports transit.

Corridors identified for new zoning.

Mixed-use development is when one property or area includes multiple uses, such as a storefront on the first floor with apartments above.

All of the city's corridors are already zoned. However, the zoning in place is commonly out of step with the ways area plans and land use recommendations say the land should be developed in the future. For example, a survey of 140+ miles of Columbus corridors found that 80% of the properties facing the street were zoned with a 35-foot height limit – meaning that by code, a new building there is not allowed to be more than three stories high without a special exception, called a variance, from Columbus City Council or the Board of Zoning Adjustment.

So even though research data and community input both tell us that these streets are the best places for denser, taller offices and housing developments, an applicant would need to go through an expensive, timeconsuming variance or rezoning process to build the kind of building the community wants and needs there.

The Zone In initiative is looking to our corridors to start updating Columbus' zoning code. This phase of the effort is focused on over 12,000 parcels of land along 62 sections of corridor where existing zoning, community plans, and current and future transit routes all support new, denser development.

Modernizing the code along these important thoroughfares can help us accelerate housing construction, better support transit and cultivate investment in our neighborhoods in a way that matches the growth the community would like to see there.

New Zoning Options

The new code proposes the creation of six zoning districts. Each district has its own set of flexible rules for what a property owner may build there - how tall the building may be, how close it should be to the street, even the minimum ratio of windows to wall space a building should have. When combined, these standards can make a building more attractive, can create more room for housing and businesses and can make a neighborhood more walkable or friendly to using transit.

By creating a clear set of rules for each district, the code also makes development more predictable, both for building owners and for neighbors in the community.

Zone In Code Framework

Zone Name		Regional Activity Center	Community Activity Center		
		These are key locations in suburban areas with large buildings and parking lots. The proposed zoning would help these areas change into more walkable areas with housing, offices and commercial buildings.	These are suburban locations with medium-sized buildings and parking lots. The proposed zoning would help these areas change into more walkable areas with more housing.		
Sub- District		None	None		
Primary Building Height	Stories	7 story maximum	5 story maximum		
	Feet to top of roof	85' maximum	60' maximum		
	Allowed with Affordability Bonus	10 story / 125' maximum	7 story / 85' maximum		
Footprint	Building Coverage	80% maximum	80% maximum		
Upper Story Stepbacks	Stepback from Rear/Side Parcel Lines	30' minimum above 3 stories 50' minimum above 5 stories	30' minimum above 3 stories 50' minimum above 5 stories		
Front Setback	Primary Building	10' minimum, 30' maximum	10' minimum, 25' maximum		
Side Street Setback	Primary Building (Interior Streets)	0' minimum, 15' maximum	10' minimum, 25' maximum		
Side Setback	Abutting Residential	20' minimum	20' minimum		
	Abutting Non- Residential	5' minimum	5' minimum

60% minimum	60% minimum	60% minimum	60% minimum
25% minimum	25% minimum	25% minimum	25% minimum

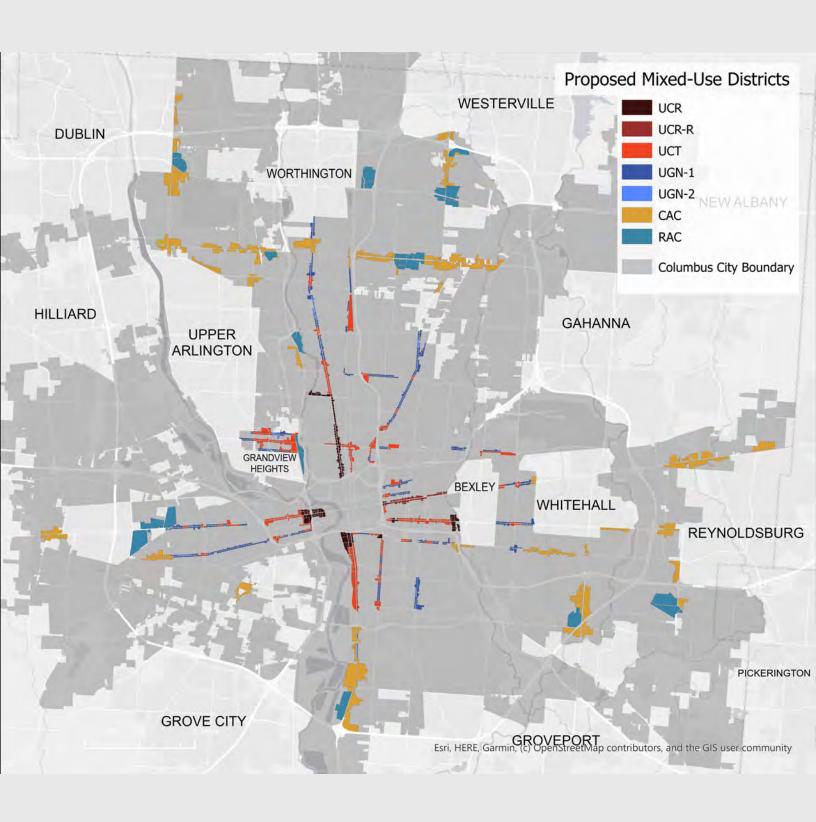

The Right Buildings, in the Right Places

Different zones make sense in different places. Corridors in dense neighborhoods close to Downtown are suited for zones that create tall buildings placed close to the street. Along thoroughfares In more suburban neighborhoods, buildings placed a bit further from the street respond to the current surroundings while contributing to a walkable environment.

The Zone In proposal recommends one of the new zoning districts for each of the 12,300+ parcels subject to the code update. The recommendation for each parcel is based on existing development, neighborhood plans, future growth projections and input from thousands of Columbus residents.

Supporting the Housing We Need

Policy Overview Housing Incentives

Zoning is a tool that can be used to pursue our city's policy goals around affordable housing.

If the City of Columbus allows a property owner to build a taller building on their land, that land has more value - they can build more offices or apartments there, and

therefore collect more rent. But when that happens, the city has an opportunity to request value in return.

Cities like Atlanta and
Charlotte have already
figured this out - they offer
bonuses or incentives that
allow a developer to build a
taller building than the base
zoning allows, in exchange
for providing a benefit to the
community.

A similar option is proposed in this code. If a housing provider agrees to set aside 20% of their building's units for housing that is affordable to households who make less than the area median income for 15 years, they would be able to build a taller building as a bonus.

For example, in a Regional

Activity Center district, a developer may build a 10 story building – three stories more than the base zoning of seven stories – if they allocate 20% of the building's housing units for income-qualified tenants.

The overall capacity of the building grows, but we also make space for residents who might not otherwise be able to afford to live there.

It's a win-win proposition.

Policy Overview: Market-Driven Parking

The existing zoning code applies a one-size-fits-all approach to parking requirements in much of the city. The code doesn't distinguish between different types of neighborhoods, availability of transit or how likely residents are to have – or need – a car.

An analysis found that with existing zoning, the corridors selected for the first phase of modernized zoning are projected to create 6,000 new homes over the next 10 years. But if we update the code as this proposal suggests, the market is projected to create 88,000 new homes.

This increase in supply can ease the rising housing costs and pressures our residents are experiencing.

This often leads to excessive parking requirements that waste land and make it harder to achieve the walkable neighborhoods residents want.

When communities are built in a way that makes it easier for people to walk, bike or take the bus, many people will choose not to own a car. In Columbus today, over 30,000 households don't own a car, for a variety of reasons.

Yet our zoning code is designed in a way that assumes everyone owns a car. This means that the costs of building and maintaining parking are often passed along to residents who don't want or need a parking space. It

also creates barriers for reusing older, historic buildings that were built before parking requirements.

Columbus has taken steps in recent years to reduce parking requirements in certain areas. Many major cities have taken the next step, and moved toward a system where minimum amounts of dedicated parking are no longer required by the zoning code, but instead are determined by market demand. Austin, Raleigh,

Housing Incentives

Market-Driven Parking

20% of units are incomequalified affordable units

Minneapolis and San Jose are among the many cities that have made this shift in support of goals to become more affordable and environmentally sustainable places to live.

The Zone In proposal allows a developer to choose how many parking spots they set aside – knowing that it's in their interest to create a product that people want. That would mean that the property owner could scale the parking to anticipated demand, but would not be forced by the code to create a specified number of parking spaces that might not be appropriate for the location and type of development.

Cities that have implemented similar policies have found that in most cases, developers provide enough parking to meet the needs of their tenants and to remain competitive with other development projects. This has proven to be the case in Downtown Columbus, where minimum parking requirements were removed

over 20 years ago. The ability to right-size parking has helped to reduce the costs of housing by not forcing every resident to pay for a space they don't need.

We've heard from residents that walkable neighborhoods and better transit are important to them. Continued growth along our corridors and support for transit access might also mean that residents will choose to get by with fewer cars. As transit service, bike lanes and sidewalks are improved throughout the city, developers and neighbors alike will continue to rethink how much parking they really need.

As the City continues to grow, there may be areas that experience increased demand for the use of public parking spaces on city streets. To help support this change, the City of Columbus is committed to ensuring that public parking is managed in a way that balances the needs of existing residents while also supporting new construction.

Design allowed by the current code

Design achieved through negotiation

Design required by proposed code

Creating a More Fair and Equitable Process

Policy Overview: Clearer Design Standards

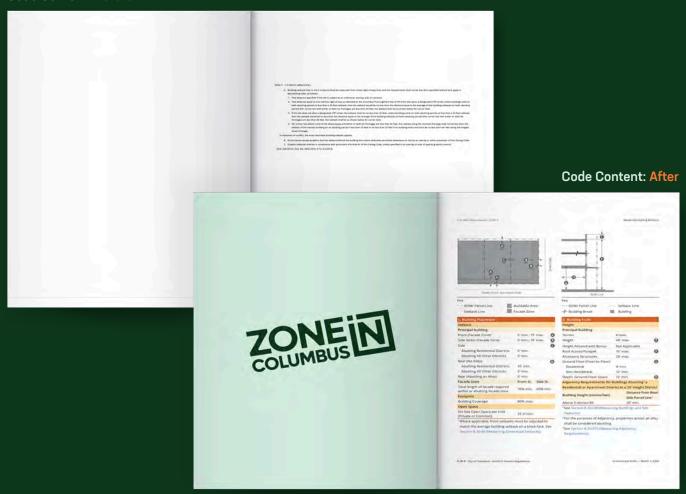

The existing code relies heavily on the regulation of uses – homes placed here, shopping over there, offices over there – rather than how those uses look and work together to make a great street.

The proposed code will continue to regulate uses, but will allow for more flexibility for residential uses on our corridors. This means that existing homes on our corridors will no longer need a costly variance to get refinanced, and that apartment buildings without shops on the ground floor will be allowed. Other types of existing uses will be able to continue, but new commercial uses that are less compatible with a walkable, transit-supported environment will encounter additional hurdles.

The code proposal also introduces new standards for how a building should look and feel. Clear, but flexible guidelines for the design of courtyards, porches and stoops and even the use of windows can help create a vibrant street-scape. "Breaking up" the front of wider buildings with pillars, different building materials and other elements can help them contribute to a pedestrian-friendly street-scape.

By clearly describing a community's expectations for building design and use, we can raise the bar for the design of new buildings in all the corridor areas from the start. City staff and Area Commissions can spend less time negotiating with developers, just to see the quality design we expect.

Code Content: Before

Policy Overview: A Code for Everyone

Since Columbus' current zoning code is more than 70 years old, it has been updated in bits and pieces for decades. The result is a disjointed and complicated code that is difficult for anyone but experienced professionals to use.

By creating a clear, modernized code with objective design standards, straightforward language and helpful images and diagrams, the new code is easier for small developers, homeowners and community stakeholders to use, so they can propose quality development in all of our neighborhoods.

Clear expectations also make it easier to develop a workable proposal the first time, without negotiating with the city to design the kinds of buildings our neighbors want. This ultimately saves applicants money – savings they can pass on through lower rents for the residents and businesses that will eventually use their buildings.

By introducing a clearer set of rules for everyone, we can help more people invest and live in our community now and in the future.

Tell Us What You Think

The Zone In code proposal was informed by regional studies and data, dozens of community and area plans and input from thousands of Columbus residents. We've connected with more than 51,800 people from every Columbus zip code to talk about our future, and how we should modernize our code to promote the kind of growth our community would like to see.

Our engagement process continues with the introduction of this proposal - public comment is open through June 10, 2024 on the policies and proposals put forward here.

There are multiple ways you can learn more and tell us what you think:

- View the map and draft code and provide feedback on our website
- Visit our interactive gallery to learn more about what the new code will do for our city
- Register for email updates to receive notices about upcoming public hearings

Zone In Gallery 141 N. Front St., Columbus OH 43215 Open 6 days a week in April and May <u>2024</u>

columbus.gov/zoningupdate zoningupdate@columbus.gov 614-845-5343

Cities are always changing. Columbus is changing faster than most.

WE ARE GROWING

BUT OUR BUILT ENVIRONMENT ISN'T KEEPING UP.

Zone In proposes updating Columbus' outdated zoning code to address the needs of an evolving city.

Together, we'll create a new set of rules that make development smarter and more forward-thinking, so we can **grow**, better.

WE ENVISION A MODERNIZED CODE THAT...

Helps us build homes that we can afford

Makes it easier to get to work

Helps our local businesses thrive

Guides the design of buildings that contribute to our community

Supports investment in places that were harmed by the decisions of our past

We'll also create a set of rules that are simpler and fairer to use, so that we can all benefit from the change that's happening around us.

TOGETHER, let's zone in on our chance to grow not just bigger, but better!

Zone In Project Goals

- Modernize our zoning code to reflect our community's current and future needs, values and aspirations.
- Support growth that prioritizes environmental and economic sustainability through improved transit, additional housing opportunities and the creation of job centers.
- Encourage thoughtful investment in neighborhoods that have experienced racial and economic segregation to help undo the harm caused by past urban development policies.
- Guide the design and development of main streets, neighborhoods and activity centers to support
 community goals while celebrating the unique character of our neighborhoods and creating a sense
 of place for residents.
- Ensure the Columbus zoning code is fair, predictable and accessible.

Phase One Priorities

While modernized zoning is needed throughout Columbus, the size of the city and complexity of the task require a phased approach. Data analysis, policy and public input all indicate that corridors are the best place to start. These are the places best suited to accommodate additional housing, support existing and expanded transit, attract businesses, and provide opportunity for community residents. Phase one of Zone In focuses on these "Main Streets" of our community.

The zoning code update will be guided by theses priorities:

1. Leverage corridors to create more housing in more places to help address the City's and region's housing shortage, by supporting changes that make it easier and more likely to build more housing.

The updated code will:

- Adjust standards, such as height limits and parking requirements, to increase housing capacity and increase feasibility for new construction.
- Allow a variety of housing options to accommodate a range of households.
- Include tools to support housing affordability.
- Expand areas where residential uses are permitted on ground floors.
- **2. Support "Main Street" jobs and businesses** *with opportunities to grow their customer base nearby and greater flexibility to adapt to changing market dynamics.*

The updated code will:

• Increase the customer base for local business by accommodating additional housing within easy walking and biking distance.

- Allow a range of "by-right" uses that support entrepreneurial efforts and allow sites to evolve as community needs and market conditions change.
- Adjust parking requirements and other standards to foster investment in small business.
- **3. Promote equitable development** with a code that relies on clear, objective standards and is easier to navigate.

The updated code will:

- Reduce reliance on site-by-site negotiation for development.
- Make the code easier to use.
- Ensure high quality development in all neighborhoods guided by clear, objective design standards for new construction.
- Support improved transit access by expanding nearby housing options in key areas.
- Increase housing supply and affordability through changes to standards such as height limits, parking requirements and permitted use.
- Work in conjunction with other tools to guide growth and build opportunity for residents.
- **4. Expand the role of corridors in creating healthy, connected communities** by reinforcing land use patterns that support alternatives to using a car and provide better access to jobs, education, healthcare and housing.

The updated code will:

- Increase densities and mixed-use development, particularly near transit.
- Align parking requirements with transit access and mobility objectives.
- Incorporate site design standards that make it easier to walk and bike.
- Foster a compact and mixed use land use pattern that supports alternatives to driving to reduce vehicle use and greenhouse gas emissions.
- **5. Foster good urban design and appealing "Main Streets"** *to support investment in communities and ensure high quality of life for residents.*

The updated code will:

- Provide a range of zoning districts that respond to varying types of corridors.
- Allow areas to evolve over time as outlined by community plans and public policy to become more walkable and transit supportive.
- Improve predictability with clear, objective design standards to guide new development in a manner that balances community priorities with market realities.
- Reduce barriers to the adaptive reuse of older buildings.

Zone In project goals and phase one priorities were adopted by Columbus City Council on October 9, 2023

City of Columbus

Office of City Clerk 90 West Broad Street Columbus OH 43215-9015 columbuscitycouncil.org

Legislation Text

File #: 0179X-2023, Version: 1

Columbus and Central Ohio are growing. The City and its partners are working to embrace the opportunities of growth, while also addressing the challenges it brings. Zoning is one of the most effective tools cities can use to manage change. A 2021 assessment found that the current Columbus zoning code does not support our community's aspiration to be an equitable thriving city. In response, the City has embarked on the Zone In initiative - the first comprehensive update of its zoning code in 70 years.

The size and complexity of this task requires a phased approach. Public input, policy and analysis all point to corridors as the best place to start. Our "Main Streets" have the greatest capacity to deliver the housing, mobility and employment opportunities our community needs in ways that are economically and environmentally sustainable. Technical work and public engagement are well underway to bring updated zoning to 143 miles of transportation corridors identified for this first phase. Later phases of Zone In will focus on neighborhoods and other portions of the City.

This resolution reinforces five overall project goals and sets forth five priorities (see attached) to guide the first phase work as Zone In moves from a broader conversation to specific recommendations for updated, mixed-use zoning. These priorities draw on thousands of points of engagement, extensive technical analysis, adopted land use and larger efforts such as the Columbus Housing Strategy, LinkUS and the Climate Action Plan.

To Adopt and Support the Zone In Project Goals and Phase One Priorities

WHEREAS, Columbus is undertaking Zone In, the first comprehensive zoning code update in 70 years, the first phase of which focuses on key corridors; and

WEHREAS, Zone In is guided by five project goals outlining a modern zoning code that promotes a sustainable, equitable city as well as the following phase one priorities; and

WHEREAS, a priority is to leverage corridors to create more housing in more places to help address the City's and region's housing shortage, by supporting changes that make it easier and more likely to build more housing as the current zoning code does not support housing creation; and

WHEREAS, a priority is to support "Main Street" jobs and businesses with opportunities to grow their customer base nearby and greater flexibility to adapt to changing market dynamics as the current zoning code does not support local business; and

File #: 0179X-2023, Version: 1

WHEREAS, a priority is to promote equitable development with a code that relies on clear, objective standards and is easier to navigate as the current zoning code does not support equity; and

WHEREAS, a priority is to expand the role of corridors in creating healthy, connected communities by reinforcing land use patterns that support alternatives to using a car and provide better access to jobs, education, healthcare and housing as the current zoning code does not support transit, walking and biking; and

WHEREAS, a priority is to foster good urban design and appealing "Main Streets" to support investment in communities and ensure high quality of life for residents as the current zoning code does not support quality design; and

WHEREAS, the Zone In project goals and phase one priorities draw on thousands of points of engagement, extensive technical analysis, adopted land use and community plans, as well as larger efforts such as the Columbus Housing Strategy, LinkUS and the Climate Action Plan; and

WHEREAS, these goals and priorities were presented at a City Council public hearing held on August 21, 2023; now, therefore

BE IT RESOLVED BY THE COUNCIL OF THE CITY OF COLUMBUS:

That this Council adopts and supports the Zone In project goals and phase one priorities and that the Zone In project team is directed to apply these goals and priorities in the development of recommendations for updated zoning during phase one of the effort.

Zone In Phase One Community Engagement Summary April 2, 2024

Zoning In on Our Community

Engagement, support and buy-in from stakeholders are crucial to the development of the code proposal. We are shaping the future of our community, and that is a big deal! We wanted Columbus residents, businesses, community groups and our regional partners to have the opportunity to learn about the effort and share their thoughts as we designed solutions that matched our shared community goals for growth and success. It was vital that everyone, especially those who hadn't had their voices heard before, got a chance to weigh in and help shape the new code.

Summary

- Thousands of people engaged, ranging from 14 years old to 84 years old
- 5,367 written comments received
- 100+ presentations to Area Commissions and local community groups
- 15 community events throughout the city
- 2,600 email subscribers
- 6,602 completed surveys
- 31 zip codes represented in feedback
- 78,000 postcards sent to property owners and renters along the focus areas
- 27,400 unique user visits to the project website
- Among people who shared demographic information with us:
 - Average age of participant was 43
 - Age range was from 14 to 84
 - 35% identified as persons of color
 - o 55% identified as white
 - o 27% were renters

How did engagement occur?

The Zone In team used a variety of means to engage community residents and stakeholders. These included emails, postcards, in-person presentations, website content, webinars, community meetings, in-person canvassing, social media, presence at community events, leveraging partner networks and digital surveys. The process also benefited from the active input of the Zone In Advisory Committee. The following pages provide an overview of these efforts:

- Zone In Advisory Committee
- Undesign the Redline
- Area Commission and Civic presentations
- Where Do We Begin report and webinar
- Community Conversations
- Community Workshops
- Community Survey

Engagement Timeline

Zone In Advisory Committee – Throughout Process

An advisory committee was formed to provide input into the zoning code update. Their mission: help shape a comprehensive, community-responsive update fostering equitable opportunities for all Columbus residents. Members provided a diverse cross-section of expertise in community issues, zoning, development and equity disparities.

The committee began meeting in November 2022 and met twelve times during the Zone In phase one process. Meetings were open to the public. Summaries and presentations were posted on the Zone In project website. Topics of discussion included public engagement strategies, project background and technical analysis, housing, parking, development capacity analysis, corridor selection and prioritization, place type analysis and zoning code elements.

Undesign the Redline – November 2022 through January 2023

Zone In partnered with the YWCA of Central Ohio to host the "Undesign the Redline," traveling exhibit at six community locations in late 2022 and early 2023. The impactful exhibit served as a jumping off point for community discussions about the legacy of structural racism in urban planning. Through this interactive display, residents engaged in vital conversations, sharing visions for a more equitable future. As the exhibit traveled to different locations, community leaders joined us for facilitated discussions. Stops included Barnett Community Center, Glenwood Community Center, Franklin Park Adventure Center, Linden Community Center and The Reeb Center. Some of their comments are captured in a wideo on the project website.

Some of what we heard:

"Either you have a seat at the table or you're an item on the menu. Exercising your voice gives you a seat at the table. So, it's absolutely imperative that you don't delegate that responsibility to someone else. You have to stand up, speak up, show up."

"Redlining did a number on the community."

"Two numbers: \$171,000, the other number is \$17,150. Ten times the difference between the average white household in terms of net worth and that of black folks."

"A lot of things were done that were really intentional, that caused a lot of harm. They were instituted and they continue to work today... So, if we want to build a different future and a different trajectory, we have to be just as intentional in picking a new path that can be inclusive for everyone."

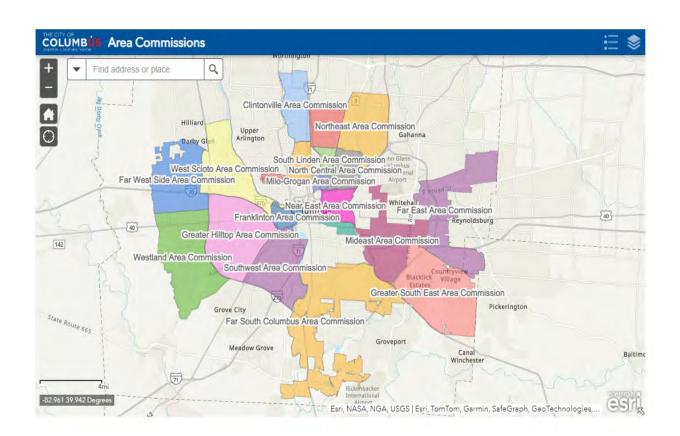

Area Commission & Civic Association Updates – Throughout Process

Area Commissions and Civic Associations are pivotal in community advocacy and connection. The Zone In team actively engaged with over 31 community groups, receiving valuable input and insights into community needs. This engagement included two rounds of presentations to community groups, ongoing project email updates, and invitations to attend Zone In events. Commission members were generally supportive of the focus on key corridors. Some expressed concerns that commissions would have less ability to impact development if additional capacity was allowed by right. Others observed the potential benefit of an updated code that provided more meaningful design guidance and reduced the need for variances.

The Department of Neighborhoods liaison team provided additional support throughout the project by sharing information and passing along questions and feedback to the Zone In team.

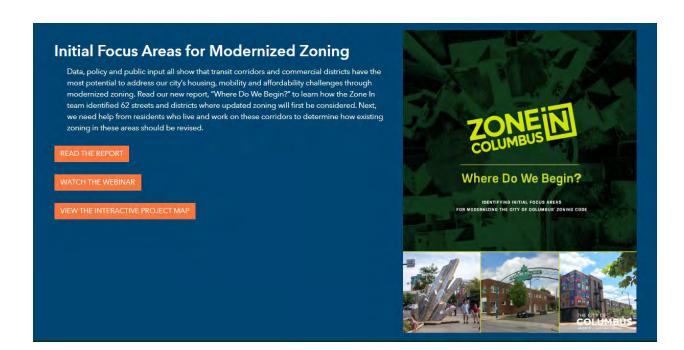

Where Do We Begin Report & Webinar – April 2023

The Zone In team tackled tough questions from the project's onset, starting with 'Where Do We Begin?' Embracing transparency, we crafted a community report and hosted a webinar to explain our approach to this historic effort. Released in April 2023, the report outlined the project's significance and goals, and highlighted how the city identified the initial focus on key corridors. The webinar attracted 180 participants who had the opportunity to ask questions and share their thoughts.

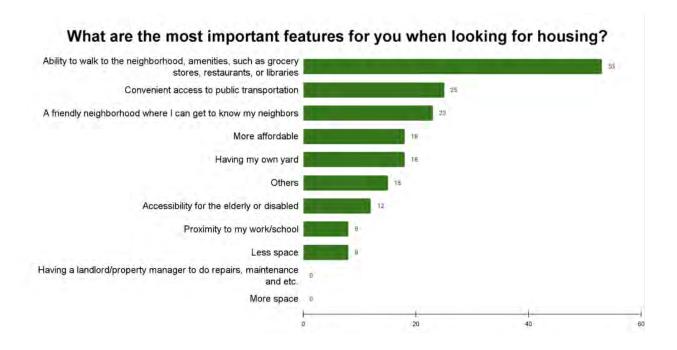

Community Conversations - May and June 2023

The Zone In team kicked off summer 2023 with five community conversations. We gathered to discuss how the zoning code impacts our neighborhoods and how we can use it to create a fairer, more vibrant city. Residents and other attendees were able to learn about the role zoning plays in our community and the potential for mixed-use corridors to support housing, improved transit and local businesses. After presentations participants shared their thoughts and observations with the Zone In team. Presentation videos were posted on the project website.

Zone In on Housing conversations were held at the Reeb Avenue Center and the Whetstone Recreation Center. Participants first heard a presentation about Columbus' current and projected housing demands, and then broke out into small groups to discuss this critical issue and its relationship to zoning. Several key themes emerged from these conversations, including the importance of affordability, diverse housing options and improving transportation to better connect residents. The following table provides an overview of input provided during these two meetings:

Zone In on Main Streets community conversations were designed to discuss how mixed-use "Main Streets" can support equitable growth in Columbus. These events were held at the City of Grace Church and Schiller Community Center. Participants first heard a presentation about the benefits and challenges of mixed-used development in Columbus' main corridors and then broke out into small groups to discuss their desires and visions for those corridors. Community members expressed appreciation for features that supported walkability, such as lighting, sidewalks and public transportation.

The **Zone in on Development** community conversation was held at the Lincoln Theatre and was a panel discussion entitled "Building Up My Block: How Decisions Get Made." Moderated by Columbus City Council President Shannon Hardin, the panel featured local developers Otto Beatty III and Beatrice Nokuri, local community leader Al Edmondson and Chief Zoning Official Shannon Pine. The panelists provided unique insight into how the development process works, the rules that govern how things get built, and the opportunities and barriers that drive development in our neighborhoods.

Community Workshops – October and November 2023

In fall 2023, Zone In Columbus hosted a series of "Building for the Next Generation" workshops. A postcard mailing to property owners and renters along the corridors helped spread the word about the events. About 250 residents, property owners, businesses owners and other stakeholders took advantage of the opportunity to learn more about the priorities and strategies being considered for the new code and engage with the Zone In team one-on-one. Over 572 comments were collected, reflecting diverse opinions and concerns from neighborhoods across Columbus.

Each workshop featured the same exhibits and used an open house format. Attendees were provided with an electronic tablet allowing for their input as they navigated the event. Participants could also use their own device or a paper version of the input guide if desired. A particular highlight was the "big map table" featuring large scale maps allowing attendees to provide corridor-specific feedback and compare potential districts.

Workshop Dates and Locations:

- Howard Community Center Saturday, October 21 from 10:00 am to 1:00 pm
- Centennial High School Thursday, October 26 from 5:00 pm to 8:00 pm
- Columbus Metropolitan Library (Downtown) Monday, October 30 from 11:00 am to 2:00 pm
- Barack Community Center Thursday, November 2 from 5:00 pm to 8:00 pm

Workshop Display Example:

 Design that breaks up the building into modules along horizontal axis

Change in material and color

Variation in floor

 Variation in floor heights and window design across modules

Vertical Design

Distinct bottom, middle, and top along vertical axis:

 Building step-backs at third story and above

Two-story street wall

Commercial Ground Floor Frontage

Transom window with divided lites
 A rhythm of store front entries
 Elevated ground floor ceiling height
 Chamfered corner entrance

Key Themes emerging from the Workshops

Housing

- Affordable housing is important to all demographics, but especially among people younger than 50.
- Many residents support reducing the zoning code's height and parking requirements for residential buildings to increase the supply of affordable housing.
- Concerns about density that were raised, including concerns about diminishing the character of neighborhoods, pedestrian safety and infrastructure in the area. Participants stated they would like to see improvements made before adding more housing and businesses.
- Several participants discussed the need for more developer incentives to provide affordable housing.

Equity

- The code in Columbus should be made more equitable to create a more diverse and inclusive community.
- Clear design standards, a simplified process and less subjectivity will allow more projects that can benefit neighborhoods.
- Zoning regulations should be more accessible to increase the diversity of development projects.
- Variance processes are cumbersome and detract from other neighborhood priorities.

Transportation

- Long range (up to 25 miles) as well as last-mile transportation is needed in Columbus.
- Suggestions for improving public transportation include increasing the number of bus routes, expanding COTA routes, reducing parking requirements, building higher and mixed-use development and prioritizing high-capacity transit.

Local Business

- Residents value the ability to walk to local businesses and are more supportive of small businesses.
- Mixed-use developments with residential and businesses were encouraged in the feedback, as well as repurposing vacant big box stores.
- Zoning that supports small businesses and allows existing businesses to maintain operations is needed.
- Strategies that provide flexibility and speed to market for business development are encouraged.
- Mixed-use buildings and density of neighborhoods are critical to business success.
- The city should consider reducing parking minimums and allowing mixed-use development.

Community Survey - October to December 2023

Zone In Columbus launched a digital community survey on October 3, 2023 that aimed to get crucial community feedback on the various aspects of the zoning code update. Participants used an interactive map to select an area of interest to them. They were then able to rate a series of building images reflecting varying sizes, scales and designs, each tailored to the area of interest. Additional questions were included to evaluate key topics like housing, parking and transit; opportunity to offer additional open-ended feedback was also offered. This survey was completed by 6,602 residents over 29 unique Columbus neighborhoods.

Methods of spreading the word:

- Mailing to property owners and renters within and nearby the focus areas;
- Email and social media outreach, leveraging city and partner networks;
- Canvassing in lower participation areas;
- Leveraging community events, such as Rise Up Cbus and meetings;
- Website information updates; and
- Area commission and major civic association visits.

The most consistent demographic difference relates to age: as respondent age increases, positivity (towards building images, towards possible zoning policy changes) decreases. This pattern was observed for each image rating and for each possible zoning policy change.

Survey Feedback:

Individuals were offered the opportunity to view images of buildings and score them from 1 (strongly disprove) to 7 (strongly approve), in terms of their favorability toward similar buildings being built on the identified corridors.

Urban General (UGN) Survey Images

As shown in the images to follow, for those areas initially identified as Urban General (UGN), the preference of respondents was for buildings like that shown in image 1, outlined in green below, with a score of 4.5 out of 7. Across all images, those that were younger tended to respond more positively than those that were older. No differences between renters and owners were observed for the UGN images.

Urban Center (UCT) Survey Images

For those areas initially identified as Urban Center (UCT), the preference of respondents was for buildings like that shown in image 4, outlined in green below, with a score of 4.2 out of 7. Across all images, those that were younger tended to respond more positively than those that were older. No differences between renters and owners were observed for the UCT images.

<u>Urban Core (UCR) Survey Images</u>

For those areas initially identified as Urban Core (UCR), the preference of respondents was for buildings like that shown in Image 3, outlined in green below, with a score of 5.2 out of 7. Across all images, those that were younger tended to respond more positively than those that were older. For most images, no differences between renters and owners were observed for the UCR images.

Community Activity Center

For those areas initially identified as Community Activity Center (CAC), the preference of respondents was for buildings like that shown in Image 2, outlined in green below, with a score of 4.0 out of 7. Across all images, those that were younger tended to respond more positively than those that were older, and those that rented tended to respond more positively than those that owned their own home.

Regional Activity Center (RAC) Survey Images

For those areas initially identified as Regional Activity Center (RAC), the preference of respondents was for buildings like that shown in Image 1, outlined in green below, with a score of 4.4 out of 7. Across all images, those that were younger tended to respond more positively than those that were older. For most images, no differences between renters and owners existed.

Zoning Policy Changes

In addition to asking respondents to rate images tailored to their areas of interest, the survey also included three "big picture" questions about the policy directions we should pursue as we think about new districts for these same areas of interest. For all three questions, those that were younger tended to respond more positively that those that were older, and renters tended to respond more positively than those that own their own home.

These questions were:

1. "Thinking about the [selected] area, do you support, oppose, or neither support nor oppose the City of Columbus updating its zoning code to reduce the amount of parking that is required for new or renovated buildings?"

Among all respondents, this question scored 4.5 out of 7, with 48% of respondents in support, 31% opposed, and 21% neutral.

2. "Thinking about the [selected] area, do you support, oppose, or neither support nor oppose the City of Columbus updating its zoning code to allow the construction of taller buildings where people can live?"

Among all respondents, this question scored 4.7 out of 7, with 56% of respondents in support, 27% opposed, and 17% neutral.

3. "Thinking about the [selected] area, do you support, oppose, or neither support nor oppose the City of Columbus updating its zoning code to encourage the creation of new or renovated buildings close to bus stops?"

Among all respondents, this question scored 5.4 out of 7, with 68% of respondents in support, 11% opposed, and 21% neutral.

Survey Zoning Open-Ended Comments

As noted, the survey also included the opportunity for respondents to give open-ended feedback in a comment box towards the end of the survey. Of the 7,328 survey respondents, we received 3,850 total open-ended comments. Of those:

- 1,740 were categorized as being related to Land Use & Urban Design.
- 1,402 were categorized as being related to Transportation & Mobility.
- 806 were categorized as being related to Affordability & Development Incentives.
- 331 were categorized as being related to Sustainability & Green Space.
- 298 were categorized as being related to Safety & Code Enforcement.
- 219 were categorized as being related to Review Process & Communication.

As with the scoring of the images, and the zoning policy changes, these comments were reviewed during the drafting of the code and map by staff to inform the standards and district mapping.

^{*}Note that some comments were classified as being in more than one category.

Zone In Phase One Technical Summary

Columbus hasn't updated its code in a comprehensive manner since the 1950s. While the code and map have undergone many changes in that time, the result is still a code that is out of step with the City's policy priorities. The code does not support our community's aspiration to be an equitable, thriving city. An August 2021 Zoning Code Assessment outlined the challenges of the current code with the following key findings:

- 1. Standards are not tailored to local conditions
- 2. Code does not prioritize housing and transit needs equitably
- 3. Overreliance on site-by-site negotiated zoning actions
- 4. Multi-layered, scattered decision-making creates uncertainty
- 5. Code is not user-friendly

In response, the City of Columbus engaged Lisa Wise Consulting (LWC) in May 2022 to follow up their work on the assessment with a plan to begin the process of updating the city's zoning code. A decision was made early on to focus on the city's "main streets," given their potential to contribute to needed housing and transit supportive development. A city team including staff from the departments of Building and Zoning Services, Development, and Public Service worked with the LWC team to develop the mixed-use zoning districts comprising Phase One of the Zone In Initiative. Technical presentations were also provided to the Zone In Advisory Committee during the process (see Engagement Summary for additional information about the committee). This document provides an overview of some of the primary steps involved in this work, including focus area selection, policy review, existing conditions analysis, and preparation of the proposed mixed-use zoning districts.

Corridor Focus Area Selection

While updated zoning is needed throughout the city, the scale and complexity of the task requires a phased approach. The "Where Do We Begin" report, published in April 2023 outlined the process of selecting the Initial Focus Areas for Modernized Zoning, including consideration of policy recommendations, transit routes, existing zoning, and site-specific factors.

Mixed-Use Recommendations from Area Plans

Many Council-adopted area plans and community plans recommend mixed use in specific areas. Mixed-use development is compact, higher-density, walkable, and incorporates complementary land uses such as multi-family residences, restaurants, stores, office and public institutions.

COTA Bus Routes

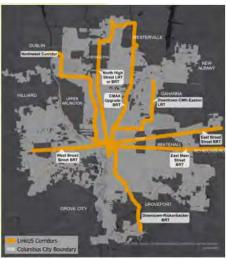

Transit systems serve a critical role in connecting people with jobs, education, healthcare and other destinations in an accessible and affordable manner.

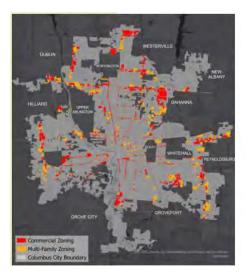

Commercial Zoning Overlays

Columbus' commercial overlays support a pedestrian-friendly environment and consistent design through standards addressing such things as building setbacks, parking placement, and graphics. Mixed use development is a key characteristic of many overlay areas.

LinkUS Corridors

LinkUS is a regional initiative focused on bringing high-capacity rapid transit (HCRT) and complete streets to key corridors.

Existing Zoning

Commercial and multi-family zoning along COTA routes and LinkUS corridors are where higher-intensity residential and mixed uses are currently allowed in some form.

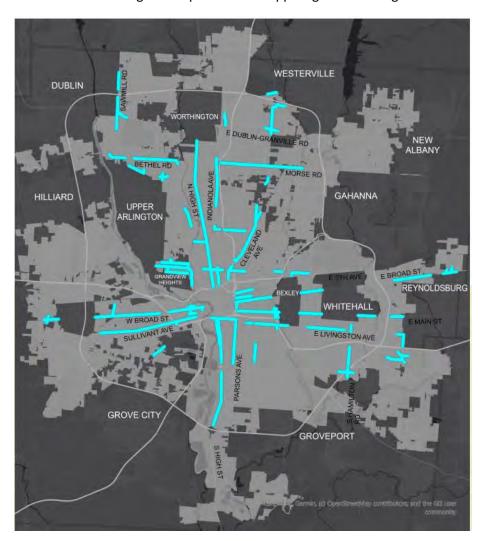

Site-specific considerations:

- 1. Where appropriate, properties recommended for commercial, office, and employment center were considered to complement mixed-use areas when adjacent.
- 2. Where the current zoning might not reflect the conditions on the ground, or where there is no land use recommendation, existing land use data was considered in identifying areas.
- 3. Areas recommended for mixed-use, but that are either too small in size or not located on a bus route, were removed from this first mapping phase.
- 4. Unique zoning environments, such as The Ohio State University or Easton, were taken into account as not being a priority for this phase.

Phase One Focus Areas:

When these five criteria are overlaid and site-specific adjustments are made, there are 62 identified corridors and nodes that have the greatest potential to support growth through modern zoning.

Policy Review

This step of the process involved analysis of relevant policy guidance. Community plans and citywide policy initiatives addressing land use, housing, transit, and sustainability strongly reinforce the importance and need for mixed-use corridors in meeting critical community goals.

Citywide Policy Initiatives

Columbus has an extensive citywide policy framework to guide updates to the zoning code and map. These include efforts focused on land use and development guidance as well as initiatives and documents addressing aligned priorities, such as housing and transportation. Studies such as Insight2050 sponsored by the Mid-Ohio Regional Planning Commission (MORPC) quantify the benefits of development along corridors, and the LinkUS mobility initiative sponsored by the Central Ohio Transit Authority (COTA), the City of Columbus, Franklin County and MORPC is anchored in equitable transit-oriented development along corridors. The Climate Action Plan recognizes the potential of mixed-use transit supportive development to reduce carbon emissions and the Columbus Citywide Planning Policies include both land use guidance and design guidelines objectives. Documents reviewed include:

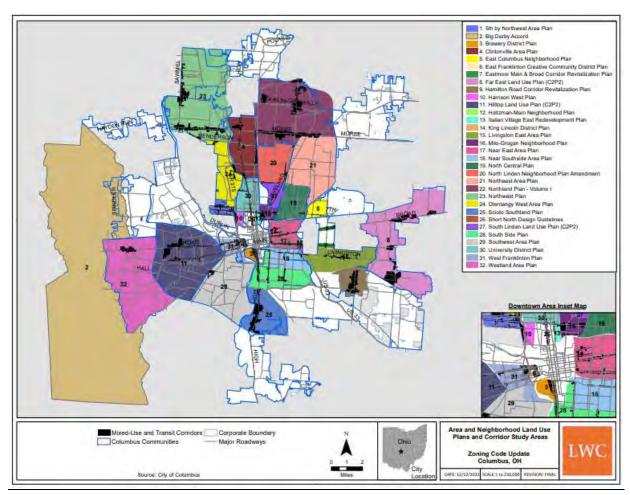

- Columbus Citywide Planning Policies (C2P2) (2018)
- Columbus Housing Strategy (2022)
- Regional Housing Strategy (2020)
- LinkUS Community Action Plan (2022)
- Insight 2050 Corridor Concepts Study (2019)
- Connect Columbus Policy Framework (2019)
- Columbus Climate Action Plan (2021)
- Strategic Parking Plan (2019)

Area Plans

Area Plans, adopted by City Council, provide policy guidance for allocating City resources and for consideration of development proposals for about 95% of the City. These Area Plans cover a wide range of topics, such as land use, transportation, housing, and historic preservation, and they often include design guidelines and detailed area specific recommendations. Newer Area Plans are developed using the Columbus Citywide Planning Policies (C2P2) framework described above. Thirty-two adopted area plans overlap with the focus area corridors. These were reviewed for relevant recommendations, with an emphasis on mixed use and transit supportive guidelines. Higher density, mixed use development focused on key corridors is a consistent theme of the plans. Other findings were that area plans range widely in age and level of detail.

Existing Conditions Analysis

The Zone In team reviewed existing conditions within the focus areas, including current zoning, land use, parcel width and size, and the presence of negotiated conditions (variances, planned districts and limitation text).

Among the key findings:

- Focus area corridors total roughly 140 miles counting both sides of double fronted stretches.
- There are dozens of different base zoning districts in place
- Over 80% of the corridors are zoned some form of commercial or manufacturing with C4 being the most prevalent.
- Roughly 30% of the parcels on the corridors have at least one zoning exception, including nearly 1,000 variances.
- 81% of the corridor frontage has a 35' height limit, the same as that of single-family zoning districts.
- Commercial overlays are present along many of the corridors, particularly in the older parts of the city.
- About 80% of corridor parcels limit or prohibit residential on the ground floor.
- Approximately two thirds of typical lots within the corridor study area were deemed extra-small
 to small, meaning lots widths of 40 feet to 80 feet and depth of 120 feet to 150 feet, or about
 quarter-acre to half-acre lot sizes.
- Increased height and density may not be possible on smaller lots without consolidation of multiple parcels and/or the calibration of development standards to allow smaller setbacks, reduced parking, and re-evaluation of lot coverage controls.
- The analysis also shows a smaller but significant number of sites over 1 acre in size. These larger lot types may require zoning standards that allow for multiple buildings, new block/street development, and calibrated height/transition standards to fit into the surrounding context.
- Less than 1% of buildings along the corridor are currently over 4 stories.

Development of Mixed-Use Districts

Place Type Analysis

Among the frequent observations by residents and other stakeholders was that the focus area corridors include a range of existing conditions and development patterns. Drawing on these factors and policy guidance, the Zone In team developed five different "place types" or area contexts for use across the corridors. They reflect a range of intensities and development patterns allowing for varying conditions and degrees of change within a single corridor and/or between corridors.

Allocation of Districts

The Place Types served as the basis for new mixed-use districts. Factors which influenced the allocation of districts include proximity to downtown and other major activity centers, location at or near key intersections and transit stops, the presence of alleys and grid street patterns, lot size and depth, policy recommendations and community feedback from the fall 2023 community workshops and survey.

As the Zone In team reviewed the focus areas, a determination was made that a second category of Urban General was needed. Typically applied along stretches of corridors in the older portions of the city, this district allows buildings to be built close to the street and a range of commercial and residential uses. A second version of Urban General, UGN-2, was established to address areas with larger setbacks and a more limited existing use pattern. The resulting six mixed-use districts were incorporated in the current proposal.

An additional outcome of the mapping process was minor adjustments to the focus area. A primary objective was to minimize conditions where parcels, existing CPDs, and buildings were split between a new proposed designation and an existing district. Active public schools and parks were also omitted from the focus area due to their unique use and parcel configuration.

How much housing could proposed code updates unlock?

An economic analysis of the proposed Framework of Zones shows that **zoning code updates could enable a lot more housing capacity** along Columbus' commercial corridors.

The results of the analysis, summarized in the table below, show that the **Framework of Zones could add over 80,000 units** of additional housing capacity above what is possible under current zoning regulations. This would amount to roughly **44% of the housing needed region-wide by 2030**, according to the Columbus Housing Strategy. While there is no development timeline associated with this estimate, it tells us how much development is market-feasible, given existing market conditions.

Market-Constrained Estimates	Market Constrained Capacity (Net New Dwelling Units)	Share of Regional Need (200,000 Units by 2030)
Framework of Zones	88,000 units	44%
Current Zoning	6,000 units	3%

What assumptions went into the analysis?

The capacity analysis estimates development feasibility on a parcel-by-parcel basis using real estate pro forma and local market data. It represents a scenario where every parcel with redevelopment potential, under today's market conditions, is rebuilt with the most feasible development prototype given achievable rents and sales prices. It takes into account lot conditions and costs, construction costs, zoning, and achievable rents and sales prices.

What does the analysis not include?

The capacity analysis was developed to provide a conservative estimate of proposed code changes. It does not consider incentives, such as a proposed density bonus or the Community Reinvestment Area (CRA) Residential Abatement Program. While the impact of these policies has not been quantified, as development incentives they would contribute to even higher capacity along the corridors.

MEMORANDUM

TO: Kevin Wheeler, City of Columbus

FROM: Rachel Cotton and Alex Steinberger, Cascadia Partners

DATE: March 21, 2024

PROJECT: Zone-In Columbus

RE: Housing Capacity Estimates

This memorandum summarizes findings of the housing capacity analysis undertaken by Cascadia Partners.

The Columbus Housing Strategy predicts the Columbus Region will require up to 200,000 additional housing units by 2030. The housing capacity analysis indicates that, if existing zoning stays in place, the near-term development capacity of the City's corridors will amount to only 3% of the region's needed housing. However, initial testing of proposed zoning code changes ("Framework of Zones") shows capacity for producing 44% of the region's needed housing. In summary, the proposed zoning code updates represent the ability of the corridors to accommodate roughly five times as much housing as exists on them today¹.

Capacity Analysis Methods

Three types of capacity estimates were produced for "base zoning" — otherwise known as existing conditions— and for a set of proposed zoning code changes - the "Framework of Zones." The methods used to estimate each type of capacity are summarized in the following section.

¹According to the City of Columbus, ~22,000 housing units exist along the corridors today.

Theoretical Maximum Capacity

Theoretical maximum capacity represents a scenario where every parcel along the corridors redevelops to the maximum residential density possible under the zone district standards.

Observed Maximum Capacity

Observed maximum capacity scales down the theoretical maximum calculation by factoring in construction costs, parking costs, parking requirements, and other standards that might reduce the maximum zoned envelope. This estimate represents a scenario where every parcel having redevelopment potential—where the existing improvement value is less than or equal to the land value—is rebuilt with the most intense use that is likely to develop in Columbus based on observations about what the market is producing at present.

Market-Constrained Capacity

Market constrained capacity models near-term development feasibility on a parcel-by-parcel basis using a residual land value (RLV) approach. The market-constrained estimate represents a scenario where every parcel having redevelopment potential, based on market conditions, is rebuilt with the most intense use that is likely to develop in Columbus, given achievable rents and sales prices.

The near-term market capacity estimates use the same lot size, parking assumptions, and pro formas as the observed maximum estimates. Additional logic is applied to exclude from the capacity total all parcels with recently built improvements (newer than 1990) and where the development would not be financially feasible.

Assumptions

Each method for assessing capacity applied different assumptions about what is likely to be built and how market realities are incorporated into the

analysis. Table 1 below summarizes several categories of assumptions and how they were applied to the three capacity analysis methods.

Table 1: Capacity Analysis Methods and Assumptions Applied

Assumption Category	Theoretical Maximum	Observed Maximum	Market Constrained
Maximum Density	X	-	-
Off-Street Parking	-	X	X
Construction Type	1	X	X
Lot Size Conditions	1	X	X
Improvement-Land Value Ratio	-	X	-
Residual Land Value Screen	-	-	X
Incentives (Bonus, Abatements)	-	-	-

Maximum Density

Maximum density was calculated for both existing zoning standards and the proposed Framework of Zones and applied only to "theoretical maximum" capacity. For base zoning, base zones, relevant overlays, density maximums, and height districts were all considered. For the Framework of Zones, since there are no density maximums in code, the assumed theoretical maximum density that is achievable in each zone, given the other development standards, was calculated and is detailed in Table 2.

Table 2. Theoretical Maximum: Standards and Achievable Densities per Zone²

	LOT	
ZONE HEIGHT SETBACKS C	LOT OVERAGE	THEORETICAL MAX DENSITY
Regional Activity Center 7 Front: 10; Interior: 5; Rear: 10	80%	194.4
Community Activity Center 5 Front: 10; Interior: 5; Rear: 10	80%	138.8
Urban General 2 4 Front: 5; Interior: 5; Rear: 5	80%	118.5
Urban General 1 4 Front: 0; Interior: 0; Rear: 5	80%	118.5
Urban Center 5 Front: 0; Interior: 0; Rear: 5	no max	175.9
Urban Core 12 Front: 0; Interior: 0; Rear: 5	no max	422.1

Construction Type

For the "observed maximum" and "market-constrained" capacity estimates, achievable density assumptions were tempered by the highest and best available construction types given Ohio state building codes and market constraints. For example, if a given zone allows a height that can technically achieve 10 stories, that height is reflected in the "theoretical maximum" calculation. However, in the "observed maximum" and "market constrained" capacity estimates, the need for buildings over 7 stories to switch to more costly steel and concrete construction was considered. This led, in some cases, to reductions in assumed achievable height and density.

Off-Street Parking

The parking assumptions used for each pro forma, as detailed in Table 3, represent the most reasonable parking configuration a developer would consider, given the lot size, building height and site configuration for each prototypical development. They accommodate anywhere between one half to a full floor of tuck-under or podium parking, resulting in parking ratios between 0.3 and 0.7 spaces per unit.

Whereas the proposed code update requires no minimum amount of parking for residential development, it was assumed that developers would provide some "rational" amount of parking within each prototypical building, in a manner that maximizes their return on investment through the amount of housing units they are able to fit in the building and on a

² All examples assume a residential unit size of 1,000 square feet.

given floor in tandem with providing parking. This generally amounts to no more than 1 level of podium parking. This is consistent with newer projects along certain corridors that have taken advantage of parking reductions or negotiated relief from existing parking requirements.

Table 3 summarizes the fifteen pro formas used to model each combination of zone district and lot size. The table includes attributes such as height (number of stories), number of units, lot size category, maximum density(units/acre), and parking assumptions, specific to each zone and lot size. The pro formas used to calculate observed maximum and near-term market constrained capacity are the same, though with differing logic applied to factor in development feasibility in the market constrained estimate.

Table 3. Pro Forma Characteristics

PRO FORMA	ZONE(S)	HEIGHT	LOT SIZE	# UNITS	DENSITY	PARKING RATIO	# PARKING SPACES
002_UGN2_SM	UGN-2	4	SM	15	94.4	0.55	9
003_UGN1_SM	UGN-1	4	SM	15	95.9	0.53	8
004_CAC1_SM	RAC, CAC	5	SM	18	114.3	0.42	8
005_UCT1_SM	UCT,UCR	5	SM	23	141.6	0.41	10
006_UGN2_MD	UGN-1,UGN-2	4	MD	33	103.7	0.53	18
007_CAC1_MD	CAC	5	MD	43	132.5	0.42	19
008_RAC1_MD	RAC	7	MD	62	191.6	0.29	18
009_UCT1_MD	UCT	5	MD	50	155.0	0.41	21
010_UCR1_MD	UCR	7	MD	69	214.6	0.45	32
011_UGN2_LG	UGN-1,UGN-2	4	LG	64	104.2	0.70	45
012_CAC1_LG	CAC	5	LG	76	124.4	0.70	54
013_RAC1_LG	RAC	7	LG	109	177.7	0.62	68
014_UCT1_LG	UCT	5	LG	88	143.6	0.50	44
015_UCT1_LG	UCR	12	LG	201	329.9	0.32	65
016_UCT1_LG	UCR (alt)	7	LG	110	179.9	0.62	69

Lot Size Conditions

General lot size conditions were also factored into the analysis. Lot size and configuration can impact achievable density by limiting the overall building envelope and by constraining the way parking can be accommodated. To account for this, capacity was calculated in each zone based on three parcel

size ranges: under 10,000 square feet (small lot), 10,000 square feet to 0.5 acre (medium lot), and 0.5 acre+ (large lot). The achievable density on each parcel is dependent on its zoning and size, and the development program accounts for parking configuration feasibility. More details on the logic driving the calculations are included below.

Small Lot: <10,000 Sqft

Lots under 10,000 square feet can accommodate only surface parking due to limitations on the minimum floor plate needed to accommodate tuck-under or podium parking.

Medium Lot: 10,000 - .5ac

Lots between 10,000 square feet and one-half acre can accommodate surface and tuck-under parking but cannot accommodate podium parking due to minimum floor plate requirements.

Large Lot: 0.5 ac+

Lots over one-half acre were assumed to accommodate parking of any type, including podium or surface garage parking. Underground parking was not modeled because it is too costly to be feasible for most projects within the corridor study areas at this time.

Improvement-Land Value Ratio

Parcels with improvements equal to or greater than the value of their land (based on count assessor data) were removed from capacity estimates for the "observed maximum" capacity calculation.

Residual Land Value Screen

Residual land value (RLV) is the maximum land price that a developer can "afford" to pay for a project given local market conditions (rents and sales prices). An RLV screen uses real estate pro formas to assess the maximum land price for a specific building prototype given parcel-specific land costs and achievable rents and/or sales prices.

As figure 1 below shows, RLV is the maximum price a developer can afford to pay for land after accounting for construction costs, fees, and rate of

return. Changes to zoning (as proposed in the Framework of Zones) have the potential to influence costs and potential revenue, thereby impacting a project's residual value.

EXISTING POLICIES PROPOSED POLICIES CONSTRUCTION COSTS CONSTRUCTION COSTS **TAXES & FEES TAXES & FEES** DEVELOPER RETURN DEVELOPER RETURN MAXIMUM LAND COST MAXIMUM LAND COST

Figure 1. How Zoning Regulations Influence Residual Land Value

Incentives

No incentives were assumed as part of any of the three methods of capacity analysis. Two incentives in particular are of note: density bonuses and tax abatements. The City is currently discussing a proposed density bonus that would allow for additional floors of height (above what was assumed in this analysis) in exchange for deed-restricted affordable units. As this analysis does not take this additional height into consideration, it follows a more conservative approach than assuming every project would take advantage of such a bonus.

With respect to the City's Community Reinvestment Area (CRA) Housing Abatement program, tax abatements were also not considered as part of this analysis. Including tax abatements in the analysis would have resulted in improved feasibility for the "market constrained" capacity estimates, so omitting them from the analysis also aligns with a more conservative approach.

Capacity Findings

The following section contains a summary of capacity estimates for the proposed zoning code updates ("Framework of Zones"), including a comparison to capacity under base zoning, and some general findings.

Each capacity type (theoretical, observed, and market) was estimated for both base zoning and the proposed Framework of Zones. Existing development within the corridors (roughly 22,000 units) was subtracted from each capacity estimate to produce a "net new" capacity, which is summarized in Table 4 below.

Table 4. Capacity Totals: Base vs. New Framework of Zones

Capacity Estimates	Theoretical Maximum (Dwelling Units)	Observed Maximum (Dwelling Units)	Market Constrained (Dwelling Units)
Framework of Zones	918,000	255,000	88,000
Base Zoning	304,000	44,000	6,000

For each capacity estimate, the proposed Framework of Zones shows a significant increase in capacity within the corridor study areas over existing zoning. Near-Term net new development capacity on the corridors is estimated to be 88,000 units under the new Framework of Zones, whereas only 6,000 units of near-term development capacity exists under current zoning. Table 5 provides a summary of near-term market constrained capacity by district under the proposed Framework of Zones. As the table shows, more development capacity is concentrated in the Urban Center (UCT) and Urban Core (UCR) districts due to higher achievable densities, along with mapping of these districts in areas with greater market potential.

Table 5. Near-Term Market Constrained Housing Capacity by Zone District

ZONE	ACRES	# UNITS	EXISTING UNITS	NET NEW UNITS
UCT	251.9	36,842	1,068	35,774
UCR	85.6	19,128	885	18,243
CAC	111.9	13,972	239	13,733
UGN-1	97.6	9,929	386	9,543
RAC	50.4	9,372	0	9,372
UGN-2	13.6	1,363	136	1,227
TOTAL	611.2	90,606	2,714	87,892

The proposed Framework of Zones represent an increase in capacity that would accommodate roughly five times as much housing as currently exists along Columbus' corridors. The Columbus Housing Strategy projects that the Region will require 200,000 additional housing units by 2030. This increase in capacity would allow the corridors to play a larger role in helping to meet this goal by being able to accommodate roughly 44% of that regional housing need (Table 6).

Table 6. Regional Housing Production

Market-Constrained Estimates	Capacity (Dwelling Units)	Share of Regional Need
Framework of Zones	88,000	44%
Base Zoning	6,000	3%

Factors Influencing Increases in Capacity

The increase in housing capacity under the proposed zoning changes is due to a combination of factors:

1. Eliminating residential parking requirements in all districts has a significant impact on development feasibility. It was assumed that developers would still provide some parking, but the flexibility of the new parking standard allows them to do so in a way where the development remains feasible.

- 2. Increasing allowed heights on many sections of the corridors allows more units to be developed at higher densities and increases development feasibility as a direct result.
- 3. Allowing residential as an outright use in all districts and eliminating a ground floor commercial requirement allows more housing to be developed in many more areas, as well as on more individual parcels, along the corridors.

Spatial Distribution of Housing Capacity

Market constrained capacity is influenced by a range of factors including localized market conditions, land costs, and what zoning allows in a given area. As a result, housing capacity was not evenly distributed across all corridor study areas. Capacity was generally concentrated in areas in urban neighborhoods proximate to Downtown Columbus with available underutilized land and strong or rapidly appreciating market conditions. These areas include (but are not limited to) corridors that pass through Franklinton, the Short North, Clintonville, and German Village neighborhoods, as some examples.

Notably absent from the analysis were corridors in the Near East Side and more suburban areas to the far north and south of Downtown Columbus. These are corridors with relatively low achievable rents and sales prices relative to the value of available land, which is why the residual land value analysis showed very little capacity in these areas. These corridors are also likely to require infrastructure investments in sewer and water capacity as well as investments in pedestrian infrastructure (streetscape improvements, road diets, transit, etc.) to attract private development. As improvements are made in these areas, it is possible that their markets will appreciate over time, increasing the likelihood of redevelopment.

Conclusion

The housing capacity analysis described in this memo shows a substantial increase in market-feasible capacity under the proposed development standards being introduced through the new Framework of Zones. Reforms to allowed heights, ground floor commercial requirements, residential use

allowances, and parking are likely to substantially increase the number of redevelopment opportunities along the corridor. These reforms represent an important step toward achieving the goals of the Columbus Housing Strategy.

Chapter A.10: General Provisions

Sections:

A.10.010	Title
A.10.020	Authority
A.10.030	Purpose
A.10.040	Applicability of Title 33 - Zoning Code
A.10.050	Severability

A.10.010 Title

Title 34 of the City of Columbus City Codes must be known and cited as the "2024 Zoning Code" or this "Title".

A.10.020 Authority

This 2024 Zoning Code is adopted in accordance with the authority established in the Columbus City Charter and Article XVIII, Section 3, of the Ohio Constitution which grants municipalities the legal authority to adopt land use and control regulations.

A.10.030 Purpose

This 2024 Zoning Code is enacted to preserve and promote the public health, safety, and general welfare, to enable appropriate and orderly development, and to ensure social and economic stability within the various zones established by the provisions of this Title. More specifically this Title is adopted to achieve the following objectives:

- A. Provide standards for orderly growth and development, and guide and control the use of land to provide safe, harmonious, attractive, and sustainable communities;
- B. Enhance the appearance of the City and promote high-quality design;
- C. Preserve and enhance the character and vitality of the mixed-use corridors and centers and preserve the quality of life in adjacent residential neighborhoods;
- D. Incorporate sustainability practices and ensure climate resiliency;
- E. Promote economic growth and the creation of jobs; and
- F. Facilitate the appropriate location of community facilities, institutions, transportation, and parks and recreation areas.

A.10.040 Applicability of Title 33 – Zoning Code

- A. Administrative processes for obtaining a certificate of zoning clearance, and if applicable, a variance shall be governed by the provisions in Title 33, unless provided for in this 2024 Zoning Code or in a Rule or Regulation promulgated by the Director of the Department of Building and Zoning Services. Specifically, the provisions of Chapter 3305 (Zoning Administration, Enforcement and Penalties) and Chapter 3307 (Board of Zoning Adjustment; Appeals and Variances) apply to the zoning district designations found in this 2024 Zoning Code.
- B. As stated in section E.20.030, vehicular parking is not required in any zoning district of the 2024 Zoning Code. However, if parking is to be provided as defined in this 2024 Zoning Code, the parking must meet the requirements of Chapter 3312, including being screened in accordance with the requirements of section G.20.040.
- C. Chapter 3387 (Prohibited Uses), 3390 (Temporary Uses), and 3392 (Junk, Impound, and Salvage Yards) will apply, as necessary, to prohibit certain uses on parcels zoned to zoning districts in the 2024 Zoning Code.
- D. In accordance with Title 31, the process for obtaining a certificate of appropriateness will remain in place and will supersede the design standards in Article F of this 2024 Zoning Code, where applicable, as provided for in sections F.10.01 and F.30.020.
- E. In accordance with Chapters 3323 (East Franklinton District) and 3325 (University District), zoning requirements regarding those previously established zoning overlays will remain in place and will supersede the design standards of this 2024 Zoning Code, where applicable.
- F. In accordance with section 3310.01(C), provisions of Title 33 shall not apply to a property that is rezoned into a zoning district of this 2024 Zoning Code, unless specifically provided for in Title 33 or this 2024 Zoning Code.
- G. The Director of the Department of Building and Zoning Services may adopt any rules or regulations necessary in order to administer this 2024 Zoning Code.

A.10.050 Severability

The provisions of this Zoning Code are considered to be severable; and if a court of competent jurisdiction holds a provision or part of a provision unconstitutional, that decision will not automatically invalidate the remainder of a provision or any other provision or part thereof.

Chapter B.20: General Definitions

Sections:

B.20.010 Purpose and Applicability

B.20.020 Definitions

B.20.010 Purpose and Applicability

This Chapter provides the definition of terms and phrases used in this Title that are technical, specialized, or may not reflect common usage.

If a word is not defined in this Chapter, or in any other provisions of the Columbus City Codes, the Director must determine the correct definition using dictionary definitions or, for technical terms, a generally accepted professional resource or guide.

Words and phrases used solely in a particular chapter or article may be defined in the applicable provision rather than in this Chapter.

B.20.020 Definitions

A. Definitions

Abutting. Having a common boundary either directly bordering or across an alley.

Alley. See Section 3303.01 - Letter A.

Allowed Use. Uses that are allowed by right and are not subject to mandatory review or discretionary conditions of approval.

Applicant. Any person, firm, partnership, association, joint venture, corporation, or any other entity or combination of entities, or state or local government agency applying for a permit or any other application process facilitated by the Department of Building and Zoning Services. In this document, "applicant" is used rather than "owner" or "property owner" or "site owner" or "developer."

Attached Building or Structure. Any building or structure which is structurally a part of or has a common wall and/or continuous roof with a principal building or structure, except where such connection is a breezeway or walkway incidental to and not a necessary part of the construction of the principal building.

Awning. See Section 3303.01 - Letter A.

B.20.020: Definitions General Definitions

B. Definitions

Balcony. A projecting or recessed platform on a building, enclosed with a railing, wall, or balustrade.

Base (of Building). The base comprises the lowest story or stories adjacent to the ground and is distinct from the middle by a material change and/or a horizontal expression line.

Basement. Any floor of a building that is more than half below adjacent finished grade.

Bay Window. An architectural projection from the building cantilevered from the facade, consisting of one or more stories in height, containing at least 60 percent glass area. A window opening that includes an opening on each side of the projection.

Blank Wall. A ground-floor wall, or portion of ground floor wall, where no transparent materials or entrances are provided for a continuous width, as defined by Section B.30.050 (Measuring Facade Transparency).

Block. An area of land separated from other areas by adjacent streets, railroads, rights-of-way, public areas, or the subdivision boundary.

Block Face. The aggregate of all the building facades on one side of a block. The block face provides the context for establishing architectural harmony.

Block Length. The horizontal distance from the street or open space on one end of the block to the street or open space on the other end, along the same street or open space.

Block Perimeter. The aggregate of all sides of a block bounded by the abutting streets and/or open spaces.

Building. See Section 3303.02 - Letter B.

1. **Building, Principal.** The building that serves as the focal point for all activities related to the principal use of the parcel.

Buildable Area. The horizontal area in which a building is allowed to be constructed.

Building Entrance. A point of pedestrian ingress and egress to the front of a building along the sidewalk of the street immediately adjacent to the building.

Building Facade. The exterior walls of a building.

- 1. **Building Facade, Front.** The exterior wall of a building facing a front parcel line.
- 2. **Building Facade, Side Street.** The exterior wall of a building facing a side street or public realm.
- 3. Building Facade, Interior Side. The exterior wall of a building facing an interior parcel line(s).
- 4. Building Facade, Rear. The exterior wall of a building opposite the front parcel line.

Building Form. The overall shape and dimensions of a building.

Building Frontage. The components of a building that provide the transition and interface between the public realm (street and sidewalk) and building entries. Frontage types may be included as part of the building frontage.

By-Right, Approval. Approval by administrative staff of certain uses, improvements, and developments not requiring further review and pursuant to all applicable standards.

General Definitions B.20.020: Definitions

C. Definitions

Canopy. See "Awning."

Column. A vertical shaft extending from the ground or from one part of the structure to another.

Commercial. Pertaining to any business, trade, industry, or other activity engaged in a exchange of goods; services; rights or interests in property; or any other valuable consideration.

Common Space. A portion of a development held in common and/or single ownership, is not reserved for the exclusive use or benefit of an individual tenant or owner, and is available for use by all persons who reside or work in the building or on the parcel.

Cornice. A horizontal projection traditionally used to join a roof to the wall below and protect the wall from rainwater. The cornice forms the uppermost part of an entablature and may appear secondarily in locations other than at the building's eave or parapet, including, but not limited to, the upper boundary of a base story.

Courtyard (syn. Court). An unroofed area that is completely or partially enclosed by walls or buildings on at least two sides and often shared by multiple residential units or non-residential units, not including off-street parking. See Section. F.30.110 (Courtyard) for frontage type.

Coverage, Parcel. The portion of a parcel that is expressed as a percentage that is covered in buildings or other structures that are roofed, including any rear or side porch, carport or attached/detached garage, or roofed stairs but excluding any balcony, walkway, or decks.

Cul-de-sac. A street which connects to another public street only at one end and is not planned for later extension.

D. Definitions

Department. Department of Building and Zoning Services or applicable designee.

Depth, Ground-Floor Space. The distance from the street-facing facade to the rear interior wall of the ground-floor space available to an allowed use.

Development. An improvement and/or new use that requires an application with the City.

Development Site (syn. Project Site). A parcel, group of parcels, or portion(s) thereof on which proposed structures and improvements are to be constructed.

Director. Director of the Department of Building and Zoning Services or applicable designee.

District. See Section 3303.04 - Letter D.

Door. An opening that allows access to a building, room, or other space and can be fully closed to provide a barrier to weather as well as to entry.

E. Definitions

Eave. The edge of the roof that overhangs the face of the adjoining wall. The bottom of the eave can range from exposed rafters ("open eave") to a finished horizontal surface ("closed eave").

Elevated Ground Floor. A ground floor situated above the grade plane of the adjacent sidewalk.

Encroachment. Any architectural feature, structure, or structural element—including, but not limited to, a gallery, fence, garden wall, porch, stoop, balcony, bay window, terrace, chimney, or deck—that breaks the plane of a minimum setback line.

B.20.020: Definitions General Definitions

Entry. An opening, including, but not limited to, a door, gateway, or gate, that allows access to a building.

- 1. **Entry, Primary.** An opening that allows access to a building directly from the sidewalk along the front facade.
- 2. **Entry, Service.** An entrance located toward or at the rear of the building intended for the delivery of goods and removal of refuse.

Expression Line. A horizontal molding, projection, or other boundary articulating one portion of a facade from the portion above.

F. Definitions

Facade. See "Building Facade."

Facade Zone. The area between the minimum and maximum setback lines along the front of a parcel and along the side street of a corner parcel where the building facade is required to be placed to shape the intended public realm. The district standards identify the minimum amount of facade to abut and/or be placed in the facade zone.

Finish Level, Ground Floor. Height difference between the finished floor on the ground floor and the adjacent sidewalk. Standards for ground floor finish level for ground floor residential uses do not apply to ground floor lobbies and common areas in multi-unit buildings.

Floor Area. The total horizontal enclosed area of all the floors below the roof and within the exterior walls of a building or enclosed structure. The floor area of an unenclosed building or structure includes all horizontal area below the roof line.

- 1. **Floor Area, Gross.** The total floor area inside the building envelope, including the external walls, but not including the roof.
- 2. **Floor Area, Net.** The sum of the areas of all stories of a building, measured from within the exterior walls. The floor area must include any building that has a roof and is enclosed so as to provide shelter from the elements on three or more sides.

Footprint Area. The total square footage contained within a footprint.

Footprint, Building. The outline of the area of ground covered by the foundations of a building or structure.

Front. See "Parcel Line, Front."

Front Loaded (Front Access). Parcels that provide vehicular access from the front of the parcel.

Frontage, Building. See Section 3303.06 - Letter F.

Frontage, Lot. See Section 3303.06 - Letter F.

Frontage Type. A physical element configured to connect the building facade to the back of the sidewalk abutting a street or public open space depending on the intended physical character of the district.

- 1. **Frontage Type, Arcade.** See Section F.30.070 (Arcade).
- 2. Frontage Type, Common Entry. See Section F.30.080 (Common Entry).

General Definitions B.20.020: Definitions

- 3. **Frontage Type, Courtyard.** See Section F.30.110 (Courtyard).
- 4. **Frontage Type, Dooryard.** See Section F.30.100 (Dooryard).
- 5. **Frontage Type, Gallery.** See Section F.30.060 (Gallery).
- 6. Frontage Type, Lightwell. See Section F.30.130 (Lightwell).
- 7. **Frontage Type, Porch.** See Section F.30.120 (Porch).
- 8. **Frontage Type, Shopfront.** See Section F.30.050 (Shopfront).
- 9. **Frontage Type, Stoop.** See Section F.30.090 (Stoop).

G. Definitions

Gable. A vertical wall in the shape of a triangle formed between the cornice or eave and the ridge of the roof.

Garage. An enclosed building or portion of a building accessible to vehicles, used as parking of one or more motor vehicles.

- 1. **Garage, Private.** A building or portion of a building, in which only motor vehicles used by the tenants of the building or buildings on the premises are stored or kept.
- 2. Garage, Public. A structure or portion thereof, offering parking to the public with or without a fee.

Glazing. Openings in a building in which glass is installed.

Grade, Finished. See "Finished Grade" Section 3303.01 - Letter F.

Green. A landscaped focal point for passive recreation or programmed use.

Ground Floor. See "Story, First."

H. Definitions

Hardscape. Paving, decks, patios, and pavers or other hard surfaces arranged to be permeable.

Height, Building. The perpendicular distance measured in a straight line from the curb level, or from the finished grade line of the lot where such grade is higher than the curb, to the highest point of the roof beams in the case of flat roofs, and to the mean between the point of the gable and the eaves in the case of high pitched roofs; the measurements in all cases to be taken through the center of the facade of the building. Where a building is on a corner lot and there is more than one grade level the measurements must be taken through the center of the facade on the street having the lowest elevation.

- 1. **Height, Ground Floor.** The height from finished floor to finished ceiling of primary rooms on the ground floor, not including secondary rooms which include, but are not limited to: bathrooms, closets, utility rooms, and storage spaces.
- 2. Height, Midpoint of Sloping Roof. See Section B.30.030 (Measuring Buildings and Site Features).
- 3. **Height, Number of Stories.** The number of stories in a structure above adjacent finished grade. See "Story."
- 4. **Height, Top of Flat Roof.** See Section B.30.030 (Measuring Buildings and Site Features).

B.20.020: Definitions General Definitions

I. Definitions

Impervious. A hard surface area which either prevents or hinders the entry of water into soil, as would occur under natural conditions, or which causes water to run off the surface in greater quantities or at an increased rate of flow than would occur under natural conditions.

Improved. See "Improvement."

Improvement. The product of any modification to a site, structure, or building, not including maintenance or repairs.

Infill. Development within unused and underutilized lands within existing development patterns, typically but not exclusively in urban areas. Infill development is critical to accommodating growth and redesigning cities to be environmentally- and socially-sustainable.

J. Definitions

No specialized terms beginning with the letter J are defined at this time.

K. Definitions

No specialized terms beginning with the letter K are defined at this time.

L. Definitions

Landing. An unenclosed, unroofed platform, attached to a building, and serving as a required means of egress from the first floor of a building or a level area at the top or bottom of a staircase or between one flight of stairs and another.

M. Definitions

Main Body. The primary massing of a principal building.

Major. Having a greater size, scope, effect, characteristic, or quality relative to the other corresponding sizes, scopes, effects, characteristics, or qualities; or being the greater of two or more.

Massing. The overall shape or arrangement of the bulk or volume of a building and structures.

Massing Feature. Exterior building element intended to provide ornamentation to the building massing including, but not limited to: eaves, cornices, bay windows.

Minor. Having a lesser size, scope, effect, characteristic, or quality relative to the average size, scope, effect, characteristic, or qualities; or being the lesser of two or more.

Mixed-Use. The combination of residential and non-residential uses within the same building or the same general area.

- 1. **Mixed-Use Building.** A single building that contains both non-residential and residential uses.
- 2. **Mixed-Use Development**. A development site that contains both non-residential and residential uses on the same parcel, whether or not they are located within the same structure.

Module. A portion of the whole, or a whole building facade that reads as a discrete facade.

Mullion. Vertical bar providing structural support between windows.

General Definitions B.20.020: Definitions

N. Definitions

New Use. Any purpose for which land or premises, or a building or structure thereon, is improved, occupied, utilized, built, or constructed for said purpose, which has not before existed on said land or premises.

Nonconforming. See Section 3303.14 - Letter N.

O. Definitions

Occupiable Space. The portion of a building that is suitable for human occupancy.

Off-Street Parking. Dedicated parking areas, specifically designed for the parking or storage of motor vehicles. Off-street parking areas located away from roads or streets and are separate from the regular flow of traffic.

Open Space, Common. An entry court, forecourt, courtyard, or other on-site open space shared by multiple residential units or non-residential units.

Open Space, Large Site. An outdoor area dedicated for public gathering and civic activities.

Open Space, **Private**. The area required for each residential unit in some building types, provided as outdoor yard areas, patios, decks, and balconies.

P. Definitions

Parapet. A low wall along the edge of a roof or the portion of a wall that extends above the roof line.

Parcel (syn. Lot). A parcel, lot, tract, or area of land occupied or designed to be occupied as a unit by one building, one apartment complex, one multiple dwelling development, or one commercial complex and the accessory buildings or uses customarily incident to it, if any, including such open spaces as are required by this Code and such open spaces as are arranged and designed to be used in connection with such building or buildings. Such lot must be of record in the appropriate county recorder's office.

Parcel Area. The area of a parcel measured horizontally between bounding parcel lines.

- 1. **Parcel Area, Gross.** The total area, measured generally in acres, included within the property lines, as applicable, of a development.
- 2. **Parcel Area, Net.** The area of a parcel measured horizontally between bounding parcel lines, subtracting the existing or proposed horizontal area within public streets and alleys on the parcel.

Parcel Line. The perimeter and geometry of a parcel demarcating parcel from another.

- 1. **Parcel Line, Front.** The front boundary line of a parcel bordering on a primary street or open space. In the case of a corner parcel, at least one street must be designated as the primary street for the purposes of identifying the front parcel line per Section B.30.040 (Identifying Parcel Lines).
- 2. **Parcel Line, Rear.** The parcel line opposite the front parcel line, unless that lot line is a side lot line of an abutting lot.
- 3. Parcel Line, Side. Any parcel line that is not a Front, Rear, or Side Street parcel line.
- 4. Parcel Line, Side Street. Any parcel line abutting a street that is secondary to the primary street

B.20.020: Definitions General Definitions

Parking

1. **Parking, Structured.** A structure, or portion thereof, comprised of one or more levels or floors used exclusively for the parking of motor vehicles, including underground parking and parking at grade within a building or structure.

- 2. Parking, Subterranean. Parking spaces located below the finished grade of the building.
- 3. Parking, Surface. A ground level parking lot used exclusively for the parking of motor vehicles.

Patio Cover. A one story, roofed structure, used only for recreational and/or outdoor living purposes, that may be attached or detached as an accessory structure to the principal building.

Pedestrian Connection. A pathway that provides circulation for pedestrians.

Pedestrian Passage. A pedestrian pathway that extends from a public sidewalk or large site open space. The pathway is lined by non-residential shopfronts and/or residential ground floors and pedestrian entries as required by the district.

Person. Means without limitation, a natural person, the person's beneficiaries, executors, administrators, or assigns, and also includes a corporation, partnership, an unincorporated society or association, or any other type of business or association, including respective successors or assigns, recognized now or in the future under the laws of the state or the City.

Pitch. The slope of a roof expressed as vertical rise per measure of length.

Plaza. A hardscaped focal point used primarily for civic purposes and commercial activities.

Podium. A continuous, at-grade, projecting base, or pedestal under a building often occupied by parking.

Porch. A roofed platform projecting from or engaged into a building at an entrance. A porch is separated from the building by the walls of the building and is partially supported by piers, posts, or columns. A porch may be open, enclosed, or partially enclosed. "Open porch" means a porch which is unenclosed (except possibly for screens) by anything higher than 36 inches above the floor except for the roof and roof supports. A porch may be used as a frontage type per Section F.30.120 (Porch).

Projection. A change in the facade plane wherein a portion of the facade is located some distance ahead of the facade plane of the main body. "Projection" is the opposite of "Recession."

Public Realm. The outdoor space (horizontally and vertically) accessible to the public including the setbacks, sidewalks, landscaping, and street between the building facades along one side of a street and the building facades or publicly accessible open space on the other side of the street.

Q. Definitions

No specialized terms beginning with the letter Q are defined at this time.

R. Definitions

Rear. Opposite of front.

Rear-Loaded (syn. Rear Access). Vehicular access from the rear of the parcel.

Recession. A change in the facade plane wherein a portion of the facade is located some distance behind the facade plane of the main body. "Recession" is the opposite of "Projection.

Recessed Entry. An entrance to a building that is set back from the facade of the building.

General Definitions B.20.020: Definitions

Renovation (syn. Alteration, Remodel).

1. A structural change to the foundation, roof, floor, or exterior of load-bearing walls of a facility, or the extension of an existing facility to increase its floor area.

- 2. Alteration of an existing facility including, but not limited to, significantly changing its function, even if such renovation does not include any structural change to the facility.
- 3. Remodeling of the building interior or exterior.

Residential. Lands, buildings, or structures or portions thereof used, or designed for use, as a home or residence of one or more individuals.

Residential Unit (syn. Dwelling Unit). See Dwelling Unit in Section 3303.04 - Letter D.

Right-of-Way (ROW). See Section 3303.18 - Letter R.

Roof. The top covering of a building, principally responsible for providing protection from the elements.

- 1. **Sloped Roof.** A roof with a pitch expressed as vertical rise per measure of length.
- 2. **Flat Roof.** Nearly level roof which relies on subtle variations in its surface for drainage. Typically surrounded by a "Parapet."

S. Definitions

Setback. The distance by which a structure, parking area, or other development feature is separated from a parcel line.

Setback, Building. The mandatory clear distance between a parcel line and a building.

- 1. **Setback, Front.** An area extending across the full width of the parcel, parallel to the front parcel line, extending between the side parcel lines.
- 2. Setback, Interior. See Setback, Side.
- 3. **Setback, Parking.** The mandatory clear distance between a parcel line and any parking spaces or maneuvering areas, excluding drive aisles when access is allowed from that applicable parcel line.
- 4. **Setback, Primary Front.** Setback adjacent to front parcel line.
- 5. **Setback**, **Rear**. An area extending the full width of the rear parcel line extending perpendicular from the rear parcel line.
- 6. **Setback**, **Side Street**. Setback adjacent to side street parcel line.
- 7. **Setback, Side.** An area between a side parcel line, parallel to the side parcel line, extending between the front and rear parcel lines.

Shopfront Base (Syn. Bulkhead). A very low wall, that does not include glass, between the window(s) of a shopfront and the adjacent sidewalk.

Sidelight. A glazed panel at the side of a doorway.

Sidewalk. A paved, surfaced, or leveled area, paralleling and usually separated from the street, used as a pedestrian walkway.

Sill. The horizontal bottom member of a window frame.

B.20.020: Definitions General Definitions

Site Plan. A base sheet that includes the basic information that will appear on all plans including, but not limited to, parcel lines, natural features, roads, buildings, open space, or other structures proposed or existing to remain on-site. A site plan will also illustrate the dimensions of required setbacks.

Stepback. A recess in the upper stories of a building from the lower stories, designed to reduce the building's mass and express fewer stories.

Storefront. The majority portion of a Shopfront Frontage that consists of the display window and/or entrance and its components, including windows, doors, transoms, and sill pane.

Story. See Section 3303.19 - Letter S.

- 1. **Story, First (syn. First Floor).** The lowest story or the ground story of any building, that is closest to finished grade. The story above is the Second Floor or Second Story.
- 2. **Story, Half (syn. Attic Story).** A conditioned space that rests primarily underneath the slope of a gable, hip, or gambrel roof, usually having dormer windows. A half-story is considered a story when its top wall plates, on at least two opposite exterior walls, are not more than three feet above the floor of such story.

Street. A public or private way constructed for the primary purpose of vehicular travel. An alley or a driveway is not a street. The term "street" describes the entire legal right-of-way or easement (public or private), including, but not limited to, the traffic lanes, bike lanes, curbs, gutters, sidewalks, parkways, and any other grounds found within the legal right-of-way. The name given to the right-of-way (avenue, court, road, etc.) is not determinative of whether the right-of-way is a street.

- 1. **Street, Front.** Street located along the front parcel line and is identified as the primary street.
- 2. **Street, Private.** Any street not a public street. Private streets do not appear on the official dedicated street map of the City. Private streets generally provide access to more than two parcels and are usually named, unlike driveways. Private streets may be constructed to public street standards. Private streets are generally differentiated from driveways by larger widths, longer lengths, and may include public or private utilities. A private street may also be referred to as private road, lane, or drive.
- 3. **Street, Public.** A street for which the right-of-way is owned by or offered for dedication to the public and accepted by the City. A public street will be shown on the official dedicated street map of the City.
- 4. **Street, Primary.** See Section B.30.040 (Identifying Parcel Lines).
- 5. **Street, Side.** Street located along a parcel line that is not the front parcel line.

Street Frontage. The lineal length of that portion of a parcel line abutting a street.

1. **Street Frontage, Primary.** The length of the property line of any one premise parallel to and along the public right-of-way which it borders and which is identified by an officially assigned street address.

Street Tree (syn. Parkway Tree). A tree planted in public areas, tree lawns, tree wells, parkways, sidewalk areas, street easements, streets, and rights-of-way.

String Course. A continuous horizontal row or layer of material set in and distinct from the facade of the main body by its materials and/or projection.

General Definitions B.20.020: Definitions

T. Definitions

Transit Stop. A location where buses or streetcars stop to load and unload passengers. A transit stop may or may not include a shelter or a pullout.

Transom. Glazed lite or window set above a door that is the same width or no wider than the door frame, including sidelights if present.

U. Definitions

Unit. See Dwelling Unit in Section 3303.04 - Letter D.

Upper Floor. A floor in a building that is located above the first floor.

V. Definitions

No specialized terms beginning with the letter V are defined at this time.

W. Definitions

Walkable/Walkability. The condition in which an area is highly interconnected with other areas by more through streets than dead-end streets, providing more options for access to recreational walking or for walking to work, transit, errands, shopping, or restaurants. In walkable areas, bicycling and walking are viable daily options because such destinations are within approximately 0.5 mile walking or 5 mile biking of a variety of housing choices.

Walkway. A paved way located on one or more parcels, used for pedestrian traffic, and used exclusively by the parcel owner(s), their guests, and invites.

Wall Plane. A vertical surface defined by the facades of buildings.

Window. An opening in an exterior wall, allowing light into the interior, but not designed as an entry.

1. **Dormer Window.** A vertical window opening with surrounding wall and roof construction projecting from a sloping roof.

Wing. A structure that extends at least five feet from and is secondary to the main body of a principal building.

X. Definitions

No specialized terms beginning with the letter X are defined at this time.

Y. Definitions

No specialized terms beginning with the letter Y are defined at this time.

Z. Definitions

Zoning Map. The zoning map(s) of the City, together with all amendments.

Zoning District. See "District."

Chapter B.30: Measurements

Sections:

B.30.010	Purpose and Applicability
B.30.020	Facade Zone Defined by Principal Building/Frontage
B.30.030	Measuring Building and Site Features
B.30.040	Identifying Parcel Lines
B.30.050	Measuring Facade Transparency
B.30.060	Measuring Contextual Setbacks
B.30.070	Measuring Adjacency Requirements

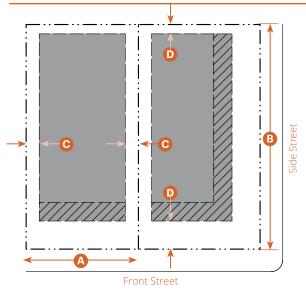

B.30.010 Purpose and Applicability

This Chapter explains how the various measurements referred to in this Title are calculated.

B.30.020 Facade Zone Defined by Principal Building/Frontage

- A. **Applicability.** The facade zone standards apply to new principal buildings and additions along the front and side streets of a parcel.
- B. **Methodology.** The required facade length is expressed in the district standards as a percentage. The percentage is calculated as follows, using an example for the front facade zone. The same approach must apply to the side street, using the minimum front and rear building setbacks.
 - 1. Identify the width of parcel (e.g., 50 feet) and apply required side building setbacks (e.g., five feet on each side).
 - 2. Subtract the horizontal length between each minimum side setback and the adjacent side parcel line from the total width of the parcel. The result is the net buildable width of the parcel (e.g., 40 feet).
 - 3. Multiply the required minimum percentage in the district standards (e.g., 50 percent) by the net buildable width of the parcel (e.g., 40 feet).
 - a. The result is the minimum length, of both the building facade and frontage type(s), as allowed by the district standards, that is required to be in or abut the facade zone (e.g., 20 feet).
 - b. See Figure B.30.020.2 for examples that are consistent with the intent of this standard.
 - 4. Where a rectilinear building is proposed on a non-rectilinear parcel, the building facade is exempt from the facade zone standard for the district, subject to the following criteria:
 - a. One end of the facade must fall within the required facade zone; and,
 - b. The length of the facade must meet or exceed the minimum required length as measured per the methodology of this Section.
 - .. On non-rectilinear corner parcels, this exception may only apply to one side of the parcel.
 - d. See Figure B.30.020.2 for an example that is consistent with the intent of this standard.

Figure B.30.020.1: Determining the Required Length Subject to the Facade Zone

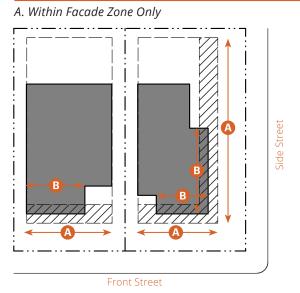

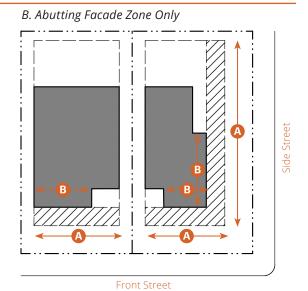

Example Calculation	on
50'	Width of Parcel
- 5'	Minimum Side Setback
- 5'	Minimum Side Setback
= 40'	Net Buildable Width
x District Standard	(e.g. 70%)

= 28' Required In or Abutting the Facade Zone

Key	1
A	Width of Parcel
В	Depth of Parcel
9	Minimum Setback to be
	Subtracted from Parcel Width
D	Minimum Setback to be
	Subtracted from Parcel Depth
	Facade Zone
	Max. Building Placement Area
	R.O.W. / Parcel Line
	Setback Line

Figure B.30.020.2: Examples of Applying the Required Length to the Facade Zone

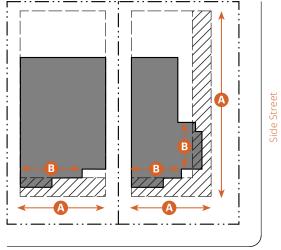

Key	'			
//// Facade Zone		R.O.W. / Parcel Lin	ie	
Building footprint		Setback Line		
A Net Buildable Width			Front Street	Side Street
Building and/or Fronta Type(s) Within Facade	_		70% min.¹	60% min. ¹

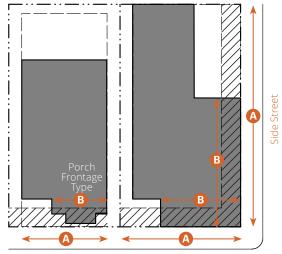

¹This is an example. See Division C of the respective district for the standard.

C. Abutting and Within Facade Zone

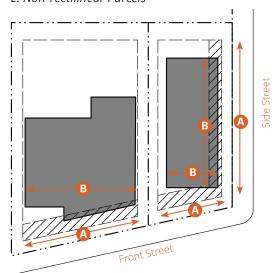

Front Street

D. For Districts with 0' minimum Front/Side street Setbacks

Building and/or Frontage Type(s) Within Facade Zone		70% min. ¹	60% min. ¹	

¹See Division C of the respective district for the standard.

B.30.030 **Measuring Building and Site Features**

- Measuring Open Space(s). The width and depth of open spaces must be measured as follows:
 - The width must be generally parallel to the front.
 - The depth must be perpendicular to the front.

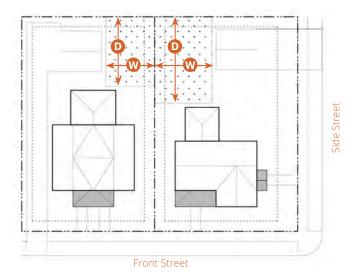

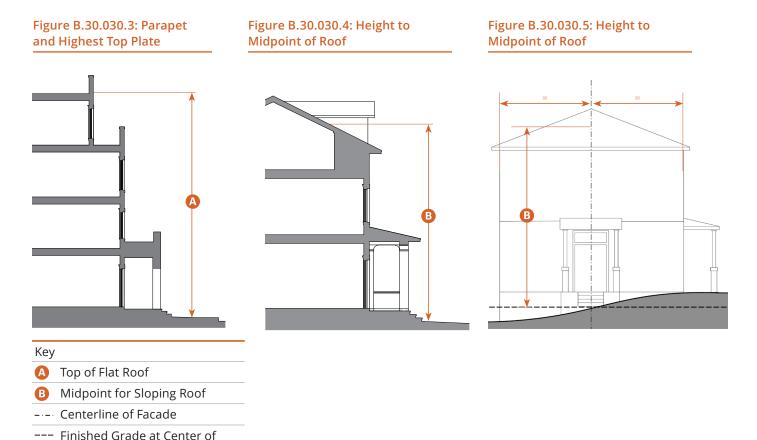

Figure B.20.030.1: Open Space(s)
Key
ROW/ Parcel Line
Setback Line
W Width
Depth

B. Measuring Building Height.

- 1. **Height, Top of Flat Roof.** The vertical distance measured in a straight line from the curb level, or from the finished grade line of the parcel where such grade is higher than the curb, to the highest point of the roof beams. See Figure B.30.030.3.
- 2. **Height, Midpoint of Sloping Roof.** The vertical distance measured in a straight line from the curb level, or from the finished grade line of the parcel where such grade is higher than the curb, to the mean between the point of the gable and the eaves. See Figure B.30.030.4.
- 3. All height measurements must be taken from the finished grade measured at the centerline of the facade.
- 4. Where a building is on a corner parcel and there is more than one grade level, the measurements must be taken through the center of the facade on the street having the lowest elevation.
- 5. Structures and rooftop equipment that do not provide additional floor space must be allowed to exceed the overall height limit pursuant to Division D of the zoning district.

Facade

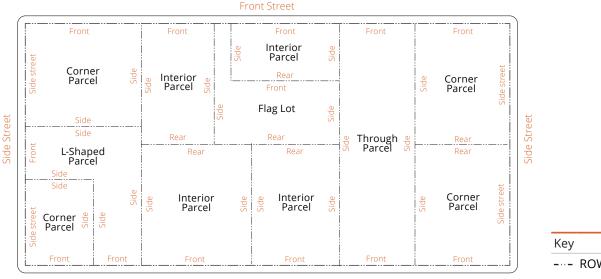

B.30.040: Identifying Parcel Lines Measurements

B.30.040 Identifying Parcel Lines

A. **Applicability.** As parcels are applied pursuant to the district standards, the front, rear, side, and side street boundaries are identified to apply building and parking setbacks, facade zones, and stepbacks.

- B. **Methodology.** The following parcel configurations listed below and illustrated in Figure B.30.040.1 must be used to determine parcel line designations (front, side, rear, side street). Parcel line designations are defined in Division B.20.020.P.
 - 1. **Corner parcel.** A parcel situated at the intersection of two streets. The primary street is determined by street designation on the Columbus Thoroughfare Plan. If both streets have the same designations, the primary street must be identified in the site plan review process.
 - 2. **Interior Parcel.** A parcel situated at the interior of the block face with two side parcel lines and one primary street frontage.
 - 3. **Through Parcel.** A parcel situated at the interior of the block face with two side parcel lines and two primary street frontages on parallel streets.
 - 4. **Flag Lot Parcel.** An irregularly shaped lot, with the main portion of the lot area that does not have direct street frontage, other than by a narrow portion of land, referred to as the pole, fronting onto a street for access purposes.
 - 5. **L-Shaped Parcel**. An irregularly shaped lot, that is not a corner parcel, with two primary street frontages along intersecting streets.

Figure B.30.040.1: Identifying Parcel and Parcel Line Designations

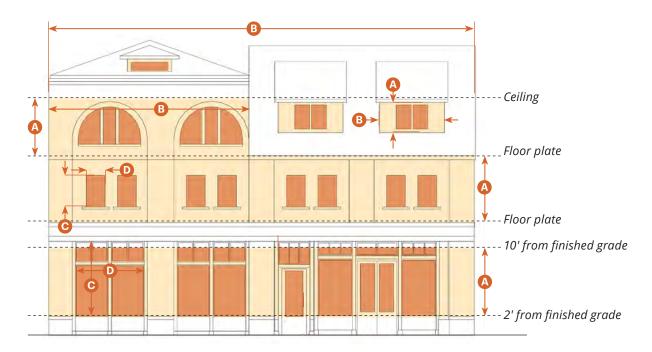

Key
---- ROW / Parcel Line

Front Street

B.30.050 Measuring Facade Transparency

- A. **Applicability**. The facade transparency standards apply to new principal buildings and principal buildings, additions, and facades where 70 percent or more of the surface area is modified along the front and side streets of a parcel.
- B. **Methodology**. The required amount of transparency is expressed in the district standards as a percentage. The percentage is calculated as follows, using an example for facades facing the front parcel line. The same approach is to be applied to the side street facade.
 - 1. Identify the applicable facade area.
 - a. Ground floor facade area measurement must be taken between 2 feet and 10 feet from the average finished grade.
 - b. Upper floor facade area measurement must be taken between taken between the floor plates of each floor.
 - c. For half stories, only facade planes, perpendicular to the ground plane, between the floor plate and ceiling of the half-story apply.
 - d. All facades facing the front or side street count towards the facade area calculation except facades that are located more than 15 feet beyond the maximum setback line.
 - 2. Identify the transparency area within the applicable facade area. To apply towards the transparency standard, windows and/or doors must meet all of the following standards:
 - a. Areas counted towards transparency measurement must use clear, untinted glass, and;
 - b. For ground floor transparency, applicable transparency areas must allow a view of the building's interior to a minimum of four feet.
 - c. Window frames and mullions may be included in the calculation.
 - 3. Calculate facade transparency percentage by dividing the proposed transparency area by the applicable facade area.
 - a. Each upper floor must meet the minimum requirement separately, and may not be calculated as one.

- Transparency Area

B.30.060 Measuring Contextual Setbacks

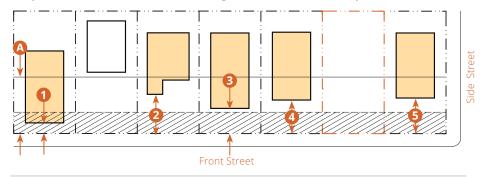

- A. Intent. In order to create consistent setbacks along a block where existing buildings do not meet the intended physical character for minimum building setbacks, new buildings may use contextual setbacks based on the placement of existing buildings along the same block face.
- B. **Applicability**. Contextual setbacks may apply when a block face meets all of the following requirements. See Step 1 of Figure B.30.060.1.
 - 1. Where the building setbacks for 50 percent or more of the parcels on the block face, including vacant parcels meet the following:
 - a. Building setback exceeds the maximum setback of base zoning district by 10 feet, and;
 - b. Building setback is less than 60 feet from the front parcel line.
 - 2. Where less than 50 percent of the parcels on the block contain existing parking in front of the principal buildings.
- C. **Methodology**. The following steps are intended to summarize the process of applying the Contextual Setback Standards. See Figure B.30.060.1 for diagrams of each step.
 - 1. **Step 1:** Identify if parcels on the block face meet the contextual applicability standards in Division B.30.060.B.
 - 2. Step 2: Measure the existing setback of all buildings with a building setback less than 60 feet.
 - a. Where a front facade has more than one setback, the portion of the building facade most front to the parcel line must be counted towards calculating a contextual setback.
 - 3. **Step 3:** Determine the average contextual setback line by taking the average of all buildings included in contextual setback measurement.
 - 4. **Step 4:** Determine the contextual facade zone. The contextual facade zone must extend 5 feet on either side of the average setback line.
 - 5. **Step 5:** Place building within contextual facade zone per base district facade zone percentage required in the standards in Division C of the zoning district. Frontage types may encroach past the contextual facade zone per base zoning district standards.

Figure B.30.060.1: Measuring Contextual Setbacks Example

Step 1: Identify if parcels on block face meet contextual applicability standards

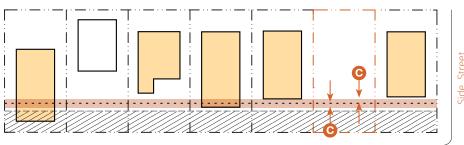

Step 2: Measure setbacks of buildings < 60 feet from front parcel line

Step 3: Determine the average contextual setback line

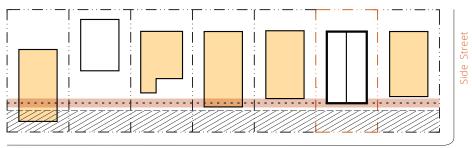

$$\frac{(1+2+3+4+5)}{5} = \text{Average Contextual Setback Line}$$

Step 4: Determine the contextual facade zone

Front Street

Step 5: Place new building within contextual facade zone. Apply the facade zone percentage required in the base zoning district.

Front Street

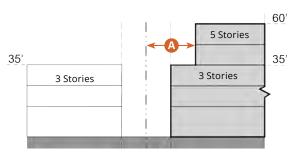

- ROW/ Parcel Line
- --- Development Site
- Max. front setback per base zoning district
- Facade zone of base zoning district
- Maximum contextual setback applicability = 60 feet setback from front parcel line
- Minimum contextual setback applicability = maximum front setback per base zoning district + 10 feet
- Existing buildings that meet applicability requirements per B.30.060.B
- Existing buildings included in contextual setback measurement
- Contextual facade zone
- - Average contextual setback line
- Contextual facade zone
 extends 5 feet on either side
 of average contextual setback
 line

B.30.070 Measuring Adjacency Requirements

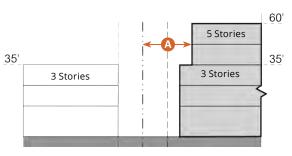

- A. **Applicability**. When a parcel within any Mixed-Use District abuts a Residential or Apartment District in a 35-foot Height District, adjacency requirements apply.
- B. **Methodology**. The minimum distance of a stepback and/or setback at any given height is specified in Division D of the zoning district, and must be measured from the rear or side parcel line. The requirement can be met as a combination of stepbacks and setbacks, as shown in examples in Figure B.30.070.1.

Figure B.30.070.1: Adjacency Methods

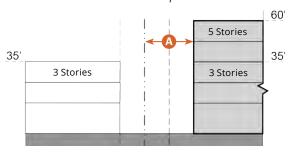

A. Building at Min. Rear Setback with Building Stepback

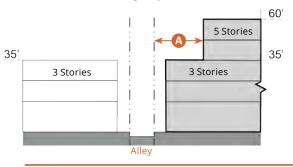

B. Increased Setback with Building Stepback

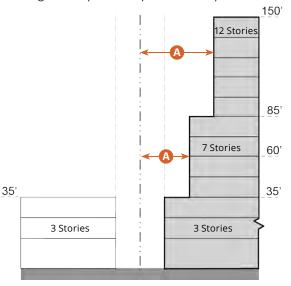

C. Increased Setback with no Stepback

D. Abutting an Alley. Building set at Min. Rear Setback with Building Stepback.

E. Building with Stepbacks required at Multiple Levels.

Chapter B.40: Land Use Definitions

Sections:

B.40.010 Purpose and Applicability

B.40.020 Definitions

B.40.010 Purpose and Applicability

This Chapter establishes the definition of land uses in this Title. If a land use is not defined in this Chapter, the Director must make a determination of the correct definition according to procedures established in Title 33.

B.40.020 Definitions

A. Residential Use Definitions

Accessory Dwelling Unit (ADU). A secondary residential dwelling unit which provides complete independent living facilities for one or more persons. It must include permanent provisions for living, sleeping, eating, cooking, and sanitation and is located on the same lot as the principal building.

Dormitory. Group living facilities, including university housing, fraternities, and sororities, for housing members or students while enrolled in school.

Family Day-Care Home (Type A). The permanent residence of the licensee in which child care is provided for:

- 1. Seven to 12 children at one time; or
- 2. Four to 12 children at one time if four or more children at one time are under two years of age.
- 3. In counting children, any children under six years of age who are related to a licensee or employee and who are on the premises must be counted.

Family Day-Care Home (Type B). The permanent residence of the provider in which child care is provided for:

- 1. One to six children at one time; and
- 2. In which no more than three children are under two years of age at one time.
- 3. In counting children, any children under six years of age who are related to the provider or employee and who are on the premises must be counted.

B.40.020: Definitions Land Use Definitions

Halfway House/Community Residential Treatment Facility. A facility for supervision and rehabilitation of persons placed therein by the Department of Rehabilitation and Correction, Federal Bureau of Prisons, a court, or otherwise for parole, probation, furlough, treatment of drug or alcohol abuse and addiction, vocational training and counseling, or adjustment to private life and noninstitutional society and which may be licensed and inspected by the Ohio Department of Rehabilitation and Correction, the Adult Parole Authority, the Ohio Department of Health or a similar agency.

Live/Work. A dwelling unit where no more than 50 percent of the space includes a business, business activity, profession, occupation, or trade activity that is operated by the resident for economic gain.

Manufactured Home. A building unit or assembly of closed construction that is fabricated in an off-site facility and constructed in conformance with the federal construction and safety standards established by the secretary of housing and urban development pursuant to the "Manufactured Housing Construction and Safety Standards Act of 1974," 88 Stat. 700, 42 U.S.C.A. 5401, 5403 and that has a permanent label or tag affixed to it, as specified in 42 U.S.C.A. 5415, certifying compliance with all applicable federal construction and safety standards.

Multiple Unit Residential. The use of a site for residential building(s) consisting of five or more units on a single site or lot. Types of multiple unit dwellings include, but are not limited to apartments, townhouses, and rowhouses.

Nursing Home. A residential facility for the reception and care of individuals composed of those who by reason of illness or are with a physical or developmental disability require skilled nursing care and/or those who require personal assistance but not skilled nursing care. A nursing home must be licensed by the Ohio Director of Health under Chapter 3721 of the Revised Code to provide personal assistance and skilled nursing care. May require a license pursuant to Columbus Municipal Code Chapter 4561 (Rooming Houses).

Residential Care Facility. A dwelling unit primarily providing supervised room, board and care in a residential setting to residents thereof whose disabilities or status limit their ability to live independently, and secondarily for training, rehabilitation and nonclinical services. The term excludes use as a clinic, institution, hospital, nursing home, convalescent home, school, child day care center, nursery school, dormitory or other similar use. The term must not be applied to owner-occupied premises with one or two roomers. May require a license pursuant to Columbus Municipal Code Chapter 4561 (Rooming Houses).

Rooming House. Accommodation other than a hotel, in which part or parts are kept, used or held out to be a place where sleeping accommodations are offered for hire for three or more persons. May require a license pursuant to Columbus Municipal Code Chapter 4561 (Rooming Houses).

Senior Housing. Multi-unit residential communities reserved for senior citizens where common facilities may be provided (e.g., recreation areas), but where each residential unit has individual living, sleeping, bathing, and kitchen facilities.

Shared Living Facility. A dwelling unit cooperatively used by six or more unrelated individuals used as a single housekeeping unit wherein each of the common areas of the unit such as, but not limited to, the kitchen, living room and dining room, is available to each such individual who participates in the costs and maintenance of the unit. Uses may require a license pursuant to Columbus Municipal Code Chapter 4561 (Rooming Houses), does not include nursing home or residential care facility.

Land Use Definitions B.40.020: Definitions

Single-Unit Residential. A single, self-contained dwelling unit providing independent living facilities for one or more individuals containing eating, living, sanitary and sleeping areas, and cooking facilities all for exclusive use by the occupants. This use does not apply to units in Group Homes, Fraternities and Sororities, temporary shelters, hotels, motels or other buildings designed for transients.

Single Room Occupancy (SRO). A structure, not including a hotel or motel, that provides living units for hire for 3 or more persons that have separate sleeping areas and some combination of independent or shared bath or toilet facilities. The structure may or may not have cooking facilities. If provided, cooking facilities may be separated or shared. May require license pursuant to Columbus Municipal Code Chapter 4561 (Rooming Houses), does not include nursing home or skilled nursing care.

Temporary Shelter. A facility that provides short term housing (i.e. not to exceed 6 months) with a continued identified bed space for individuals or families. The facility may provide personal assistance to individuals experiencing homelessness, domestic violence, or other similar occurrences. Personal assistance may include food and/or shelter and supportive services.

Three-/Four-Unit Residential. A residential building consisting of three- or four-unit dwellings designed or used exclusively as residences.

Two-Unit Residential. A residential building consisting of two dwelling units each of which adjoins the other either horizontally or vertically. Each dwelling unit must have its own separate, private means of ingress and egress. Also known as a duplex.

B. Civic, Recreation, Education, and Assembly Use Definitions

Artist Work or Sales Space. Floor space devoted to the production, showing or sale of art, such as art galleries and artist studios. This includes space for work-only (visual studio, performing rehearsal), sale-only (gallery, store, etc.), or a combination of work and sale space.

Colleges and Universities. A site for either a public or private college or university, excluding Trade Schools or primary education facilities (see Trade School and Schools, Public and Private). May include related accessory facilities, including student housing, cafeterias, bookstores, administrative offices, counseling facilities, and student health facilities.

Commercial Recreation Facility, Indoor. A recreational or entertainment use conducted within an enclosed building providing sport or exercise facilities, training/instructional sessions, or other lessons or activities. These uses include all indoor commercial recreation and amusement facilities (except "Adult Entertainment" uses) including but not limited to bowling alleys, indoor sports facilities, physical fitness facilities, ice and roller skating rinks, video arcades, and pool halls. Does not include movie theaters, defined separately under "Theater and Auditorium."

Commercial Recreation Facility, Outdoor. A recreational or entertainment use conducted in an outdoor facility or open space area, including within an enclosed building providing commercial sport or exercise facilities, training/instructional sessions. These uses include golf driving ranges, outdoor sports fields, and outdoor commercial amusement facilities including but not limited to music venues, theme parks, amusements parks, miniature golf establishments, and batting cages. For public parks and recreation facilities see Public Parks and Facilities.

Correctional Facility. Any institution or facility that is used for the custody, care, or treatment of criminal, delinquent, or psychologically or psychiatrically disturbed offenders that is operated by the Department of Rehabilitation and Correction, the county, the municipality, or a private contractor. Term also includes jail, workhouse, minimum security prison, and correctional center.

B.40.020: Definitions Land Use Definitions

Library or Museum. Public or quasi-public facilities that may provide space for exhibition of objects of permanent interest in one or more of the arts and sciences, gallery exhibition of works of art, or library collection of books, manuscripts, etc., for study and reading. Examples of uses include aquariums, arboretums, botanical gardens, art galleries and exhibitions, historic exhibits, libraries, and museums. Accessory and incidental uses such as retail (e.g., gift/book shops, restaurants, etc.), administrative offices, and storage are included.

Meeting or Gathering Facility, Public and Private. An indoor or outdoor facility for public or private assembly for public, quasi-public, or private facilities, such as community centers, banquet centers, religious assembly facilities, union halls, meeting halls for clubs and other membership organizations. Incidental uses can include facilities for the use of members and attendees, such as residences for religious leaders, kitchens, multi-purpose rooms, and storage.

Public Parks and Facilities. Public parks, playgrounds, trails, wildlife preserves, and open spaces. This classification also includes public and non-commercial playing fields, courts, gymnasiums, swimming pools, picnic facilities, and tennis courts as well as related food concessions or community centers within the facilities.

Schools, Public and Private. An educational facility for children whose attendance and curriculum is required by Ohio state law, including, but not limited to, preschool education programs, kindergarten, elementary school, middle or junior high school, high school and school-age child education programs, but does not include facilities licensed only for or providing only daycare services. Incidental uses such as school administrative offices are allowed.

Schools, Specialized or Studios. Small-scale facilities that offer specialized programs in personal growth and health for students of any age group, including, but not limited to individual and group instruction and training in the visual and performing arts, production rehearsal, photography, martial arts training, yoga/Pilates, indoor cycling, boxing, and gymnastics instruction. This may also include student tutoring and language centers and production studios for individual musicians, painters, sculptors, photographers, and other artists.

Theater and Auditorium. An indoor facility for group entertainment, other than sporting or recreation events. Examples of these facilities include civic theaters, performing arts centers, comedy venues, facilities for live concerts, and movie theaters. Does not include Commercial Recreation Facility, Indoor.

Trade School. A site for education or training in business, commerce, skilled trades, language, or other similar vocation, activity, or occupational pursuit that is not otherwise described as a home occupation, college/university, school, or instructional studio.

C. Retail Use Definitions

Adult Entertainment Establishment/Store. An auditorium, bar, cabaret, concert hall, nightclub, restaurant, theater or other similar commercial establishment that recurrently features or provides one or more of the following:

- 1. Persons who appear in the nude;
- 2. A live performance distinguished or characterized by an emphasis on the depiction, description, exposure, or representation of specified anatomical areas or the conduct or simulation of specified sexual activities; or

Land Use Definitions B.40.020: Definitions

3. Audio or video displays, computer displays, films, motion pictures, slides or other visual representations or recordings characterized or distinguished by an emphasis on the depiction, description, exposure or representation of specified anatomical areas, or the conduct or simulation of specified sexual activities.

Additional similar Adult Entertainment use definitions in the current Columbus Zoning Code include:

- 4. "Adult booth" means an area of an adult entertainment establishment or adult store separated from the rest of a building by a divider, partition or wall and used to:
 - a. Demonstrate, play, or show adult material; or
 - b. View a live performance distinguished or characterized by an emphasis on the depiction description, exposure, or representation of specified anatomical areas or the conduct or simulation of specified sexual activities.
- 5. "Adult store" means one or more of the following:
 - c. An establishment which has a majority of its shelf space or square footage devoted to the display, rental, sale, or viewing of adult material for any form of consideration.
 - d. An establishment with an adult booth.

Billboard. An off-premises sign which consists of one or more sign faces primarily intended by the sign owner to be available for sale, lease or rental for the purpose of promoting any business or other activity which is not situated on the same property as the billboard or of promoting any product or service which is not primarily available on the same property as the billboard; and incidentally used for the display of public service messages.

Farmers Market/Market. An enclosed or open-air market where fresh agricultural products, prepared food, crafts, or baked goods produced directly by participating vendors or the selling of goods are made available for sale by the public.

General Retail Business. Stores and shops selling many lines of merchandise to the ultimate consumer for personal or household consumption and excluding service or installation. Typical uses may include, but are not limited to, sales of apparel and accessories, antiques, appliances, art and fabric supplies, bicycles, books, cameras and photographic supplies, collectibles, dry goods, electronics, feed stores, florist shop, furniture, hardware, hobby supplies, jewelry, luggage and leather goods, musical instruments and accessories, office supplies, orthopedic supplies, records and CDs, retail building supply, small wares, specialty goods, sporting equipment, stationery, toys and games, and videos and DVDs, as well as department stores, drugstores, convenience stores, grocery stores, variety stores, and sales of food and beverage products (including prepared food), for off-site consumption where no seating is provided. Does not include on-site production. Includes incidental repair of goods sold as part of the primary business, for example bicycle repair and appliance repair. Outdoor storage is not allowed.

General Retail Business with Outside Sales and Display. General Retail Business in which the outdoor storage and sale of any materials, products, or equipment on the premises is allowed.

General Retail with Pickup Unit. An establishment which utilizes a building design, site layout, or operating procedure that permits customers to receive goods or services while remaining in a motor vehicle Does not include "Eating and Drinking Establishment, Pickup Unit/Drive Thru".

Marijuana Medical. An entity licensed or receiving a certificate of operation under Chapter 3796 of the Ohio Revised Code and any rules promulgated thereunder to sell medical marijuana to qualifying patients and caregivers.

B.40.020: Definitions Land Use Definitions

D. Food and Beverage Sales Use Definitions

Eating and Drinking Establishment. Means a restaurant, bar, tavern, cabaret, fast-food business, nightclub, pub, dining room, dinner theater and similar uses.

Eating and Drinking Establishment with Pickup Unit/Drive Thru. An establishment serving food or beverages which utilizes a building design, site layout, or operating procedure that permits customers to receive goods or services while remaining in a motor vehicle.

Micro-Brewery/Micro-Distillery. An establishment that is primarily engaged in the on-site production, bottling, packaging, and distribution of beer, wine, distilled spirit, or other fermented malt beverages that may include a taproom in which guests or customers may sample or purchase the product. The area dedicated to production is no more than 4,000 square feet.

E. Office and Service Use Definitions

Animal Kennel or Animal Shelter. Any building, structure, or premises which is used, arranged, intended or designed to be used for the boarding and/or breeding of animals for more than a consecutive 24-hour period and not located or operated in conjunction with the practice of a licensed veterinarian on the same parcel. Does not include Animal Daycare, pet grooming facilities, or pet stores and pet supply stores with no outside runs.

Animal Daycare. Any building, structure, or premises which is used, arranged, intended or designed to be used for the boarding of animals for less than a consecutive 24-hour period and not located or operated in conjunction with the practice of a licensed veterinarian on the same parcel. Outside runs are not allowed. Does not include pet grooming facilities, pet stores, and pet supply stores with no outside runs.

Bed and Breakfast. A residential building, other than a hotel, in which meals may be served together with lodgings for hire to three or more persons.

Commercial Day Care Center. A facility which provides non-medical care to seven or more children and/or adults in need of personal services, supervision, or assistance essential for sustaining the activities of daily living or for the protection of the individual on less than a 24-hour basis. May include infant centers and extended day care facilities. Commercial Day Care Centers are subject to State licensing requirements. For child care within a personal residence see Home Day Care.

Crematorium. A structure designed, intended to be used, or used for the cremation of human or animal remains.

Extended Stay Hotel. A building or part of a building, containing six or more guest rooms or suites, offering temporary residence for compensation and specifically constructed, licensed, and/ or maintained, all or in part, for non-transient extended stays and/or stays longer than 30 days, regardless of the presence of leases for shorter periods of time.

Funeral Home and Services. A state licensed business for the care, storage, and preparation of the deceased prior to burial or cremation. Funeral services may be conducted on the premises.

General Commercial Services. An establishment that provides business, commercial, or financial services including, but not limited to, banks and other financial institutions (including payday loan facilities, collection agencies, bail bonds, and check cashing facilities), ATMs, computer-related services (computer repair, rental employment agencies, notary services), plumbers, electricians, janitorial and window cleaning, photo copying and printing, and mailing and mail box services (not operated by the USPS), as well as incidental repair. Outdoor storage is not allowed.

Land Use Definitions B.40.020: Definitions

General Commercial Services with Outside Storage. General Commercial Services in which the outdoor storage and sale of any materials, products, or equipment on the premises is allowed.

Hospital. An institution, place, or building, public or private, whether organized for profit or not, devoted primarily to the maintenance and operation of facilities for the diagnosis and treatment or care of persons admitted for emergency and/or overnight stay or longer in order to obtain medical treatment, including surgical, obstetric, psychiatric, and nursing care of illness, disease, injury, infirmity, or deformity. The term "hospital" also includes any facility which is devoted primarily to providing psychiatric and related services and programs for the diagnosis and treatment or care of persons suffering from emotional or nervous illness.

Hotel/Motel. "Hotel" or "motel" means a building or part of a building, guest rooms or suites offering short-term and temporary residence for compensation, primarily for transient guests. Hotels and motels may include a manger's unit, and incidental amenities and services customarily provided by hotels and motels. Incidental services may include: cooking facilities within units; furnishings; linen service; maid service; food service; banquet, reception, meeting and recreational facilities; and ancillary internal retail sales and services provided for the convenience of hotel and motel guests.

Mini-Storage Facility/Personal Storage. An establishment used for renting or leasing storage spaces in which the occupants themselves customarily store and remove their own personal property on a self-service basis.

Offices. An establishment available for the transaction of general business and services including but not limited to professional, management, financial, legal, social, or government offices, but excluding banks, retail, artisan, and manufacturing uses. Includes offices for government uses as well as medical offices, urgent care, and health clinics used exclusively by physicians, dentists, and similar personnel for the treatment and examination of patients solely on an outpatient basis, provided that no overnight patients must be kept on the premises. Also includes all places where pregnant women are received, cared for, or treated during delivery, regardless of the number of patients received.

Personal Services. An establishment that provides non-medical personal services to an individual as a primary use. Examples of these use include, but are not limited to, barber shops, salon services (e.g. tanning, beauty salons, nail salons, massage, electrolysis, etc.) locksmiths, retail repair services, clothing rental, dry cleaning pick up stores, tailors and alterations, laundromats, massage, photographic studios/photo-finishing, tattoo parlors, and pawn shops. These uses may also include accessory retail sales of products related to the services provided.

Public Services, Emergency Services. Public safety and emergency services and related buildings or garages (e.g., fire and police).

Research, Development, and Testing Laboratory. Establishments for scientific research, and the design, development and testing of electrical, electronic, magnetic, optical, computer, and telecommunications components in advance of product manufacturing, and the assembly of related products from parts produced off-site, where the manufacturing activity is secondary to the research and development activities. Includes, but is not limited to, pharmaceutical, chemical, and biotechnology research and development.

Veterinary Clinic/Hospital. A facility rendering surgical and medical treatment to small animals, which may include overnight accommodations for purposes of recovery or boarding. For the purpose of these regulations, small animals must be deemed to be ordinary household pets, excluding large animals not normally housed or cared for entirely within the confines of a residence. Crematory facilities are not allowed in a veterinary clinic. Veterinary clinics/hospitals may not provide long-term boarding or have outside runs. Does not include Animal Daycare.

B.40.020: Definitions Land Use Definitions

F. Vehicle Sales and Service Use Definitions

Automobile Service Station and Convenience Store. An establishment providing sales of vehicle fuel. This use does not include Auto Service and Repair, Major or Minor related uses. This use may include incidental food and retail sales and associated merchandise display.

Automobile/Vehicle Parts Sales. Establishments engaged in the retail sale of vehicle parts and accessories, such as engine parts, motor oil, windshield wipers, auto cleaning products, tires, and batteries. Outside storage of parts, merchandise, or equipment is not allowed.

Automobile/Vehicle Rental and Sales, Major. A retail or wholesale establishment selling and/or renting new or used commercial vehicles and equipment, large commercial trucks, RVs, boats, and other large vehicles, including the sale, installation, and servicing of related equipment, parts, and accessories.

Automobile/Vehicle Rental and Sales, Minor. A retail or wholesale establishment selling and/or renting new or used automobiles, motorcycles, ATVs, and other small vehicles, including the sale, installation, and serving of related equipment, parts, and accessories.

Automobile and Large Vehicle and Equipment Storage. Facilities for the storage of large transportation vehicles and related equipment, such as trucks, trailers, and other equipment used for construction, moving, or landscape or gardening activities.

Auto Service and Repair, Major. All activities involving automobile repair, including top, body, upholstery repair, and body painting. This classification includes auto repair, body and fender, transmission, tire repair, muffler, and wheel and brake shops, as well as auto glass services, but excludes vehicle dismantling or salvaging and tire re-treading or recapping.

Auto Service and Repair, Minor. Automobile repair or vehicle repair garages, including automotive top or upholstery shops. This does not include body or paint shops. This also can include quick-service oil, tune-up; and tire sales, changes, and installation, where minor repairs are made or service is provided in enclosed bays and vehicles are not typically stored overnight. This classification excludes establishments providing engine repair, body and fender work, vehicle painting, and repair of heavy trucks or construction vehicles.

Car Wash. An area or structure equipped with facilities for washing automobiles, including power drive or steam cleaning machinery for washing exterior and interior areas of automobiles.

G. Transportation and Infrastructure Use Definitions

Parking Garage (stand alone). A public or private building, portion of a building, or structure for providing short- or long-term parking of motor vehicles, including automobiles, motorcycles, and bicycles.

Parking Lot (non-accessory, private). A private open or partially enclosed off-street area for the short- or long-term parking of motor vehicles, including automobiles, motorcycles, and bicycles.

Public Utilities, Major. Services and utilities for the public that include water treatment facility, wastewater treatment facility, large electrical distribution facilities, public works yards, and other services that provide major public infrastructure services for urban development.

Public Utilities, Minor. Services and utilities for the public that include utility and electrical substations, pumping stations, and other transmission and distribution facilities.

Wireless Communication Facilities (not including rooftop). Equipment and network components, such as wireless towers, utility poles, transmitters, base stations, and emergency power systems that are used to provide wireless communications services.

Land Use Definitions B.40.020: Definitions

H. Agriculture Use Definitions

Community Garden. Land used for cultivation by multiple users of fruits, vegetables, plants, flowers, or herbs.

Urban Agriculture. The production of food within urban areas in, for example, vegetable gardens, or orchards, for local food consumption. Includes related onsite sales of products grown on site.

I. Manufacturing Use Definitions

Artisan Food and Beverage Production. On-site production of food and beverage products, involving small batch processing. Typical uses include coffee roasting, ice cream, bakery, candy, and other food stuffs. This may include on-site sales and consumption.

Artisan Manufacturing. On-site production of goods by hand manufacturing, involving the use of hand tools and small-scale, light mechanical equipment. Typical uses include woodworking and cabinet shops, ceramic studios, jewelry manufacturing and similar types of arts and crafts or very small-scale manufacturing uses that have no negative external impacts on surrounding properties. Welding is also allowed.

I. Miscellaneous Use Definitions

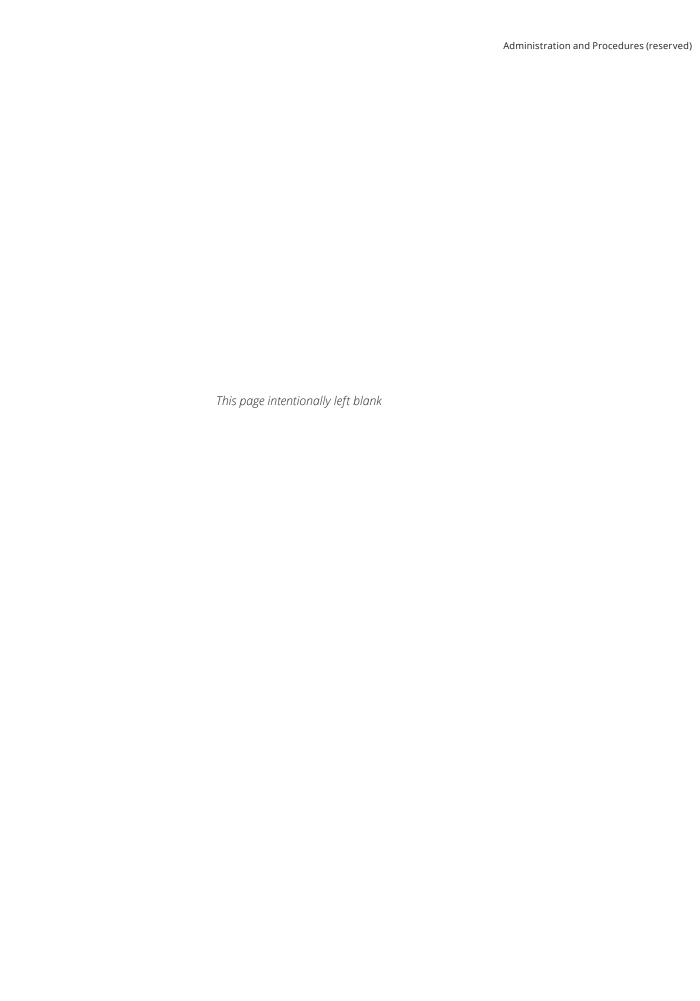

Accessory Building and Structure. A subordinate use, building, or structure located on the same lot with and of a nature incidental to the principal use, and which does not alter the essential characteristics of said principal use and is in keeping with other uses allowed in the same district. Does not include storage or shipping containers. Examples include, but are not limited to:

- 1. A garage, carport, shed, or building for domestic storage;
- 2. A children's playhouse, gazebo, greenhouse, pool, or recreation building;
- 3. Storage of merchandise normally carried in stock on the same lot with any retail service or business use;
- 4. Storage of goods used in or produced by manufacturing activities, on the same lot or parcel of ground with such activities; and
- 5. Off-street parking.

Temporary Uses per Chapter 3390 "Temporary Uses". Short-term activities that are intended to occupy a site for a limited time and are not allowed on a permanent basis, including but not limited to temporary construction equipment and sales offices and temporary seasonal sales lots.

Article C: Administration and Procedures (reserved)

Article D: Boards and Commissions (reserved)

Article E: District Regulations

Chapters:

Chapter E.10: Purpose of District Regulations	E.10-1
Chapter E.20: Mixed-Use Zoning Districts	E.20-1

Chapter E.10: Purpose of District Regulations

Sections:

E.10.010 Purpose and Applicability

E.10.010 Purpose and Applicability

This Article establishes zoning districts as applied to the Zoning Map. The district standards and requirements of this Article must be considered in combination with the standards in Article F (Supplemental District Standards) and Article G (Citywide Standards). If there is a conflict between any standards, the provisions of Article F (Supplemental District Standards) must supersede the provisions of this Article. This Article also provides the general permit requirements for all uses proposed within the zoning districts established in this Article.

Chapter E.20: Mixed-Use Zoning Districts

Sections:

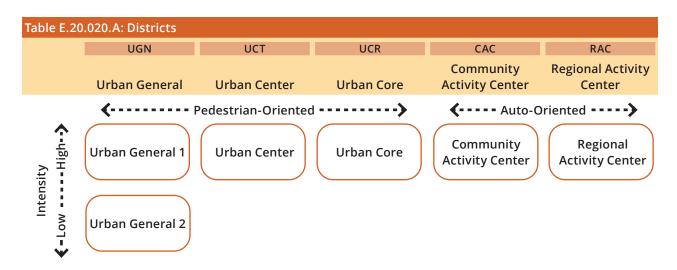

E.20.010	Purpose
E.20.020	Districts Established
E.20.030	General Requirements
E.20.040	Urban General 1 (UGN-1)
E.20.050	Urban General 2 (UGN-2)
E.20.060	Urban Center (UCT)
E.20.070	Urban Core (UCR)
E.20.080	Community Activity Center (CAC)
E.20.090	Regional Activity Center (RAC)
E.20.100	Uses
E.20.110	Pre-Existing Uses (reserved)

E.20.010 Purpose

This Chapter establishes the range of zoning districts (districts) to implement the intended physical character for Columbus' mixed-use areas with a range of contexts and conditions. These districts foster walkable environments and range in function and intensity from primarily pedestrian-oriented environments (Urban Core and Urban Center) to transitional areas and corridors (Urban General) to more auto-oriented environments (Community Activity Center and Regional Activity Center).

E.20.020 Districts Established

A. The following districts are hereby established: Urban General (UGN-1 and UGN-2), Urban Center (UCT), Urban Core (UCR), Community Activity Center (CAC), and Regional Activity Center (RAC). The naming of the districts is based on a spectrum of contexts that exist in the City as shown in Table E.20.020.A.

E.20.020: Districts Established

Mixed-Use Zoning Districts

B. The districts established are intended to regulate and generate certain physical elements, including, but not limited to the following:

- 1. Intent: the intended physical character;
- 2. Sub-districts: whether or not a sub-district applies, allowing a different range of uses in specific geographic areas (See Division C below for more information about sub-districts);
- 3. Building Placement: the building setbacks, the amount of facade required in or abutting the facade zone, and on-site open space requirements;
- 4. Building Form: the maximum overall building height and stories, ground floor height, and adjacency requirements;
- 5. Encroachments: allowed projections that may extend into the required setback;
- 6. Facade: requirements for minimum amount of openings/glazing and addressing blank walls;
- 7. Parking: the required amount and location for vehicular and bicycle parking; and
- 8. Additional Standards: references to additional requirements related to lighting, landscaping, screening, and graphics.
- C. Sub-districts are slight variations of the base district, are parcel-specific, and mapped on the Zoning Map. This Chapter includes one type of sub-district:
 - 1. **Restricted.** The restricted sub-district is applied for the following purposes:
 - a. To allow less uses than the base district allows in specific areas, within the same form and character of the base district; and/or
 - b. To further restrict certain uses already allowed in the base district for specific areas.
 - c. In a restricted sub-zone, the front setbacks must be adjusted to match the average building setback on a block-face. See Section B.30.60 (Measuring Contextual Setbacks).
- D. Section E.20.100 (Uses) identifies the zoning districts and their requirements for particular uses.

Mixed-Use Zoning Districts E.20.030: General Requirements

E.20.030 General Requirements

A. Design and development standards in this Chapter apply to all principal buildings. Setback standards (Division C), Building Coverage standards (Division C), and Accessory Structure Height standards(Division D) of each district must apply to all accessory structures.

B. Allowed uses are regulated by Section E.20.100 (Uses).

C. Facade Zone

- 1. Buildings are required to be placed on the parcel in compliance with the facade zone requirements defined by principal building/building frontage in Division C of the district.
- 2. Facades are allowed to be any shape in plan view in compliance with the facade zone requirements.
- 3. Courtyard frontage type may count towards the required facade zone amount.
- D. Each principal building must provide at least one building entry along each abutting street or open space.
- E. A principal building must be oriented to address and be nearly parallel to a street. Nearly parallel means within 15 degrees of being parallel.
- F. **Ground Floor Depth.** The ground floor, for a minimum depth of 12 feet, is intended to provide active interior spaces for all commercial or residential uses. Parking, trash rooms, and storage space are prohibited within this depth, applicable to the length of facade as required within the facade zone identified in Division C of the district.
- G. Any pickup unit or canopy must be attached to the principal building and cannot be located adjacent to a primary street frontage or side street frontage.
- H. All roof-mounted mechanical equipment must be screened from public view to the height of the equipment. The design, colors and materials used in screening must be architecturally compatible with the rooftop and the aesthetic character of the building.
- I. Backlit awnings are not allowed.

J. On-Site Parking

1. Vehicular parking is not required for any use within the Mixed-Use zoning districts. However, if provided, parking must meet all requirements of Title 33 and be screened according to the requirements of Section G.20.040 (Screening).

E.20.030: General Requirements

Mixed-Use Zoning Districts

K. **Open Space.** On-site open space must be provided within the parcel as identified in Division C of the district standards.

- 1. On-site open space requirement may be distributed across multiple open spaces, for example, a combination of balconies/terraces, common open space, and/or private yards. The minimum dimensions of any required open space is five feet.
- 2. The following do not count towards the on-site open space requirements:
 - a. Areas designated for use by motor vehicles, including, but not limited to, driveways, turnarounds, or parking areas and well as required parking lot landscaping and screening required by Chapter G.20 (General Development Standards).
 - b. Greens, plazas, or pedestrian passages that are used to meet the required amount of open space required for Large Sites as described in Section F.40.040 (Design Standards for Large Sites).
 - c. Dog Parks.
- 3. Existing non-residential buildings that are adapted for residential uses on parcels that do not have existing open space, are exempt from the On-Site Open Space standard required within Division C of the district.

Mixed-Use Zoning Districts E.20.040

E.20.040 Urban General 1 (UGN-1)

General note: the illustrations above are intended to provide a brief overview of the district and are descriptive in nature.

A. Intent

sThis district is a predominately walkable district comprised of attached and detached buildings, accommodating low and medium-rise buildings on smaller blocks and parcels. Typically located between higher intensity centers or functioning as a small mixed-use node at an intersection. These areas provide opportunities for infill development of vacant parcels and parking lots, reuse of older buildings, and some redevelopment at moderate densities. Allows residential, retail, service, and other commercial uses.

The following are generally appropriate form elements in the district.

Attached and Detached Buildings
Small-to-Medium Building

E.20.040: Urban General 1 (UGN-1) Mixed-Use Zoning Districts

Mixed-Use Zoning Districts E.20.050

E.20.050 Urban General 2 (UGN-2)

General note: the illustrations above are intended to provide a brief overview of the district and are descriptive in nature.

A. Intent

This district is a predominately walkable district comprised of detached buildings with larger setbacks, accommodating low and medium-rise buildings on smaller blocks and parcels. Typically located between higher intensity centers or smaller mixed-use nodes at an intersection. These areas provide opportunities for reuse of older buildings. Allows for residential, and a limited range and scale of neighborhood-serving commercial and office uses.

The following are generally appropriate form elements in the district.

B.20.020(P)

Pre-existing Use – A use, other than a billboard, established prior to the effective date of a rezoning of a property from a zoning district under the Title 33 Zoning Code to a zoning district under this Title which, at the time of the rezoning, conforms to all then-applicable Title 33 requirements including previously established non-conforming uses as well as any uses approved by variances, but which uses do not constitute an Allowed Use under this Title.

Pre-existing Building – A building established prior to the effective date of a rezoning of the property upon which the building is located from a zoning district under the Title 33 Zoning Code to a district designation under this Title which, at the time of the rezoning, conforms to all then-applicable Title 33 requirements and standards including previously established buildings that are non-conforming as well as any buildings approved by variances, but which requirements and standards do not conform with requirements and standards of this Title.

B.20.020(A)

Approved Site Plan - A drawing to scale showing a plan for the development of a specific parcel or parcels of land, which drawing has been approved through a Title 33 rezoning or variance process, and contains provisions requiring a development to be in conformity with said site plan.

E.20.110 - Pre-existing Use

- A. All Pre-existing Uses as defined in B.20.020(P) shall be designated as an Allowed Use as defined in B.20.020(A) subject to the following:
 - 1. A Pre-existing Use may be maintained in its existing condition, and may also be expanded up to an additional 25% of the floor or area space in use at the time of the initial rezoning to a zoning district under this Title. Any expansion above 25% is not considered a Pre-existing Use and therefore, must comply with all applicable Allowed Uses and design standards under this Title. Any improvement or alteration of the land or building for the expanded use may not result in any increased noncompliance with any development standards under this Title.
 - Pre-existing Uses abandoned for 12 months or more are no longer considered Preexisting Uses and therefore any newly established use after abandonment must comply with the Allowed Uses and design standards under this Title.
 - 3. A Pre-existing Use may be replaced only pursuant to an Approved Site Plan, or in accordance with the then-lawful conditions that existed prior to the effective date of the rezoning of the property to a zoning district under this Title.

E.20.120 - Pre-existing Building

- A. Pre-existing Buildings shall be considered to conform to design standards under this Title subject to the following requirements:
 - 1. Buildings may be replaced or remodeled only in strict conformance with the following:

- A previously approved final site compliance plan or an approved site plan;
 or
- b. Other documentation, as approved by the Director, that depicts a site condition in existence at the time of the property's initial rezoning to a zoning district under this Title; or
- c. In conformance with applicable provisions of design standards under this Title.
- 2. Buildings may be expanded up to 25% of the floor space in existence at the time of the property's initial rezoning to a zoning district under this Title. Any expansion above 25% must comply with applicable design standards under this Title.
- 3. Buildings abandoned for 12 months or more must comply with design standards under this Title.
- No replacement, remodel, or expansion shall:
 a. create any new condition of noncompliance with any standard of this Title, or
 b. otherwise increase the degree of the existing noncompliance of all, or any part, of such building.

E.20.130 Abandonment of Pre-existing Use or Pre-existing Building

- A. If a Pre-existing Use or Pre-existing Building is voluntarily discontinued for any reason for a period of 12 months or more, only those uses and buildings allowed under this Title may be established.
- B. A Pre-existing Use or Pre-existing Building shall be determined by the Director to be abandoned if one or more of the following conditions exist for a period of 12 months or more:
- 1. Utilities, such as water, gas or electricity to the property, have been disconnected;
- 2. The property, buildings, or grounds have fallen into disrepair;
- 3. Signs or other indications of the presence of the use have been removed;
- 4. Equipment or fixtures necessary for the operation of the use have been removed; or
- 5. Other actions which, in the opinion of the Director, constitute an intention on the part of the property owner or lessee to abandon the use.
- 6. Voluntary replacement of a Pre-existing Use or Pre-existing Building with an Allowed Use or building permitted under this Title.
- C. Once a Pre-existing Use has been determined to be abandoned, any subsequent use shall comply with the provisions of this Title. Any new construction, including buildings, site features, parking areas, and other associated development standards shall comply with the applicable provisions of this Title.

E.20.140 – Authority to continue – amendments to Title 34.

For property located in a zoning district under this Title, any use or building that legally exists under the applicable use and design standards for that district that is rendered out of compliance upon the adoption of any amendment to this Title, may be continued in its zoning district so long as it remains otherwise in compliance with the provisions of this Title.

E.20.150 – Prohibition on illegal uses or buildings

This chapter shall not be interpreted as authorizing the continuation of any use of a structure or land that did not lawfully exist on the effective date of the rezoning of the property to a zoning district under this Title or any of its amendments, or when annexed to the city.

Chapter F.10 Purpose of Supplemental District Standards

Sections:

F.10.010 Purpose and Applicability

F.10.010 Purpose and Applicability

This Article provides standards that are supplemental to the regulations for each zoning district in Article E (District Regulations) and are specific to particular aspects of development, such as building massing and articulation, building frontages, and the development of large sites. If there is a conflict between any standards, the provisions of Article F (Supplemental District Standards) must supersede the provisions of Article E (District Regulations).

Chapter F.20: Massing and Articulation Standards

Sections:

F.20.010	Purpose
F.20.020	Applicability
F.20.030	Modules
F.20.040	Base, Middle, and Top Design
F.20.050	Blank Wall Treatment

F.20.010 Purpose

This Chapter sets forth standards that supplement the zoning district and frontage type standards to further refine the intended building form and physical character of new and adapted buildings.

F.20.020 Applicability

The standards of this Chapter apply to all new development and facades where 70 percent or more of the surface area is modified. Parcels located in Historic Preservation and Design Review Areas are exempt from the standards of this Chapter. The applicability of specific standards are based on building size as described in Table F.20.020.A.

Table F.20.020.A: Applicability					
Building Width	Blank Wall Treatment See Section F.20.050 (Blank Wall Treatment)	Base, Middle, & Top See Section F.20.040 (Base, Middle, and Top Design)	Modules See Section F.20.030 (Modules)

≥ 3 stories	•	•	•		

Key

- = Standards apply
- -- = Standards do not apply

F.20.030 Modules

General Note: Photos on this page are illustrative, not regulatory.

A. Intent

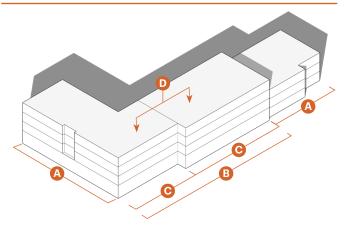

A module is a portion of a building facade that is designed to read as a discrete facade. When long buildings present a variety of facades along the public realm, modules helps ensure a pedestrian-oriented and human-scaled environment.

B. Applicability

Building facades within a facade zone are required to be organized into modules pursuant to F.20.030.C.

Building Length	Module Length			
≤ 80'	Modulation	not required		
> 80' - 160'	20 min.	80' max.		
> 160'	40' min.	80' max.		

Figure F.20.030.1 Modules

- (A) Module/Building over 80' wide and up to 120' wide
- Building wider than 160'
- Module within a building wider than 160'
- Adjacent modules

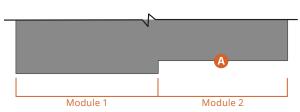

C. Module Standards

Each module is required to differentiate from adjacent module(s) with at least one of the following features.

- A Major Wall Plane Shift
- Wall plane to shift (i.e. project or recess) from the adjacent facade: 2 feet min.
- 2. Length of module wall plane projection or recession: Entire Module length.

 Refer to Table F.20.030.B.
- 3. A wall plane is required to extend vertically throughout the module's base, middle, and top.

Plan Section

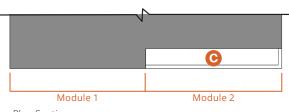

- B Minor
 Projection or
 Recession
- 1. Depth of projection or recession from the adjacent facade: 2 feet min.
- Width of projection or recession:
 6 feet min.; 12 feet max.
- 3. A projection or recession may be located at the edge of a module or between modules.
- 4. A recession is required to extend vertically through the module's middle and top; it is allowed to extend through the base.
- 5. A projection is required to extend vertically through the module's middle; it is allowed to extend through the top and/or base.

Plan Section

- Upper Floor(s)Stepback
- 1. Stepback from facade plane of main body: 10 feet deep min.
- 2. Length of stepback: 20 feet min.
- When there is an upper-floor stepback, the story directly below the stepback must then be required to provide a top per the requirements of Section F.20.040 (Base, Middle, and Top Design).

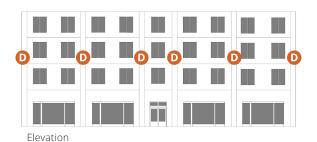

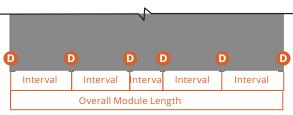

Plan Section

C. Module Standards (Continued)

- VerticalFacadeArticulationElements
- Allowed only on modules up to 160' max. length. Additional facade length beyond 160' must use (A) to (G) (above).
- 2. Projection or recession of vertical facade articulation element: 4 inches min.
- 3. A vertical facade articulation element may be located at the edge of a module or between modules.
- A vertical facade articulation element is required to extend vertically through the module's middle; it is allowed to extend through the top and/or base.
- 5. Spacing intervals for vertical facade articulation elements along entire building facade: 15 feet min.; 35 feet max.

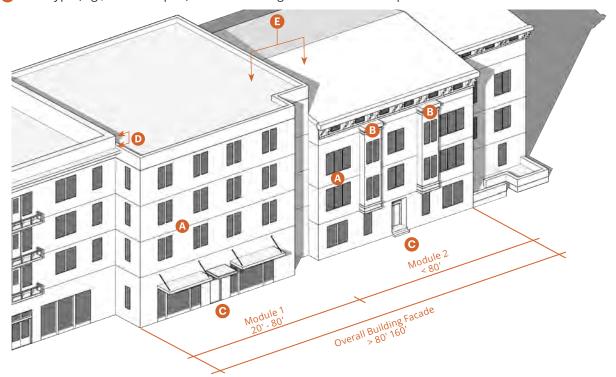

Plan Section

Each module is required to differentiate from adjacent module(s) through at least two of the following features:

Primary wall finish material

- A Fenestration type, amount, or pattern on upper floors
- B Presence of bay windows
- O Incorporating one or more Frontage Types not included in the adjacent module

 Utilizing different elements to define base/middle/top, as described in Section F.20.040 (Base, Middle, and Top Design), including cornice treatments, as applicable
- D Eave/parapet height difference of 8 inches minimum
- (E) Roof type (e.g., flat vs. sloped) or min. four degree difference in slope

F.20.040 Base, Middle, and Top Design

General Note: Photos on this page are illustrative, not regulatory.

A. Intent

The intent of base, middle, and top design is to define the horizontal articulation of a building in order to affect a building's perceived height and massing and improve its visual impact on the public realm.

B. Applicability

The standards of this Section apply to new buildings that are more than 40 feet wide and at least three stories.

C. Base, Middle, and Top Design Standards

- 1. New facades within a facade zone must be designed to visually express a base, middle, and top.
- 2. Boundaries between the base, middle, and top must be articulated by a cornice, projecting profile/string course, expression line (horizontal molding or projections), or other horizontal element that differentiates one portion of a facade from the portion above or below.
- 3. Elements defining the base, middle, and top must be consistent across the length of the building or module.

Top

- 1. The top is required to include at least one of the following:
 - a. Parapet with a cap, coping, or railing if roof is occupiable;
 - b. Pitched or mansard roof with projecting eave and/or rake; or
 - c. Cornice (allowed to be used in combination with a parapet or pitched roof).
- 2. The top is allowed to include the uppermost story or stories as long as a cornice or projecting profile/string course is expressed at the floor level of the uppermost story.
- 3. Upper stories that are stepped back at least 10 feet from the main facade do not constitute the top; the portion of the facade that is not stepped back must include its own top pursuant to this Section.

Middle

- 1. The middle must include the building's primary finish material.
- 2. For buildings or modules with four or more stories, the middle must comprise at least half of the building's stories, not counting any half story or basement.

Base

1. The base must comprise the lowest story or stories of the building or module and be defined from the middle by a material change and/or a horizontal expression line.

Figure F.20.040.1 Base, Middle, and Top Design

F.20.050 Blank Wall Treatment

A. Intent

The intent of these standards is to avoid untreated blank walls adjacent to the public realm to enhance the character and quality of public streetscapes along the ground level.

B. Applicability

The standards in this Section apply to the ground floor of all buildings in all districts with untreated blank walls adjacent to a public realm.

Blank wall means a ground-floor wall, or portion of ground floor wall, where no transparent materials or entrances are provided for a continuous width of at least 16 feet and height of 10 feet.

C. Blank Wall Treatment Standards

- 1. At least 50 percent of the area of the blank wall must be covered by one or more of the following:
 - a. Mural and/or other art installation.
 - b. Protruding/recessed brickwork and tile.
 - c. Living plant material, including, but not limited to, green/living wall, and/or plants of sufficient height to screen the blank wall that are rooted in the ground or in planters.
- 2. The following treatments may be used in combination with any of the above treatments:
 - a. Bench or other outdoor seating. Benches may be freestanding or integrated into the articulation of the facade.
 - b. Bicycle racks. May be freestanding or integrated into the articulation of the facade.

A mural on a blank wall provides visual interest along the sidewalk on a side street.

Surface texture with small projections of tile detailing on blank wall provides visual interest along the sidewalk at a front street.

A living plant wall on blank wall provides visual interest along the sidewalk on a side street.

General Note: Photos on this page are illustrative, not regulatory.

This page intentionally left blank

Chapter F.30: Frontage Type Standards

Sections:

F.30.010	Purpose
F.30.020	Applicability
F.30.030	General to Frontage Types
F.30.040	Frontage Types Overview
F.30.050	Shopfront
F.30.060	Gallery
F.30.070	Arcade
F.30.080	Common Entry
F.30.090	Stoop
F.30.100	Dooryard
F.30.110	Courtyard
F.30.120	Porch
F.30.130	Lightwell

F.30.010 Purpose

This Chapter provides the standards for building frontage types ("frontage types"). Building frontage types are the components of a building that provide the transition and interface between the public realm (street and sidewalk) and building entries.

F.30.020 Applicability

The standards of this Chapter apply to all new development and to facade modifications that modify 70 percent or more of the surface area of a street-facing facade. Parcels located in Historic Preservation and Design Review Areas are exempt from the standards within this Chapter. Where a district standard is different from the standard(s) in this Chapter, the standards of this Chapter prevail.

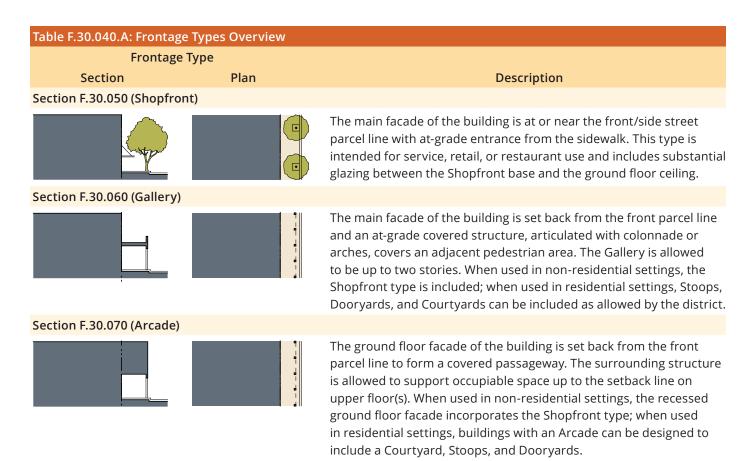

F.30.030 General to Frontage Types

- A. The names of the building frontage types indicate their particular configuration or function and are not intended to limit uses within the associated building. For example, a Porch is allowed to be used by non-residential uses, including, but not limited to, a restaurant or office, as allowed by the district.
- B. The description provided in Division A of each frontage type serves as the definition of the type.
- C. Each principal building is required to include a building frontage type at all building or unit entries along the front street, side street, or adjacent public open space.
- D. Access to the required ground floor space, in compliance with Division D of the zoning district, is provided through the allowed building frontage types of this Chapter.
- E. Each building is allowed to have multiple building frontage types.

- F. Each building frontage type is required to be located on a building facade in compliance with the facade zone pursuant to Division C of the zoning district.
- G. Building frontage types are allowed to encroach into the minimum front and side street setback pursuant to Division E of the zoning district.
- H. Frontage types, including Gallery and Arcade, may not extend into the ROW unless otherwise approved by the Department of Public Service.
- I. Backlit awnings are not permitted.
- J. Chain link fencing is prohibited.

F.30.040 Frontage Types Overview

Table F.30.040.A identifies the allowed frontage types. See each frontage type section for standards.

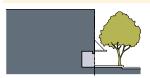

Frontage Type Standards F.30.040: Frontage Types Overview

Table F.30.040.A: Frontage Types Overview

Frontage Type

Section Plan Description

Section F.30.080 (Common Entry)

The main facade of the building is near the front parcel line, with a recessed or covered entryway within the main facade, providing a defined transition between the sidewalk and the interior. The entryway leads to a lobby or foyer that provides interior access to units or offices.

Section F.30.090 (Stoop)

The main facade of the building is near the front parcel line with steps to an elevated ground floor entry. The Stoop is elevated above the sidewalk to provide privacy along the sidewalk-facing rooms. Stairs or ramps from the Stoop lead directly to the sidewalk or are parallel to the sidewalk.

Section F.30.100 (Dooryard)

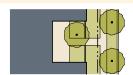

The main facade of the building is set back from the front parcel line, which is defined by a low wall, hedge, or fence, creating a small private area between the sidewalk and the facade. Each Dooryard is separated from adjacent Dooryards by a low wall, hedge, or fence. The Dooryard is allowed to be raised or at grade.

Section F.30.110 (Courtyard)

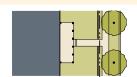

The main facade of the building is at or near the front parcel line and a portion is set back into the parcel to create an entry court or shared garden space for housing, or an additional shopping or restaurant seating area within retail and service areas. The following additional frontage types can be combined with the Courtyard: Stoop, Shopfront, Gallery, or Arcade.

Section F.30.120 (Porch)

The main facade of the building is set back from the front parcel line with a covered structure encroaching into the front setback. A Porch may also be located in the side setback with its narrow side facing the street. The Porch is allowed to be one or two stories, is open on at least two sides, with occupiable space located behind the building setback line.

Section F.30.130 (Lightwell)

The main facade of the building is setback from the front parcel line by a sunken Lightwell and may also include an elevated terrace or stoop. This type buffers residential, retail, or services uses from urban sidewalks.

F.30.050 Frontage Type Standards

F.30.050 Shopfront

Example of a Shopfront

Example of a Shopfront

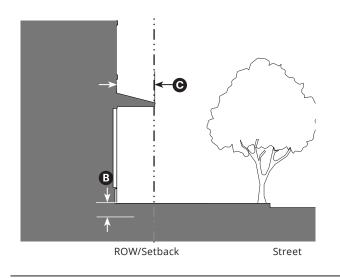

Example of a Shopfront

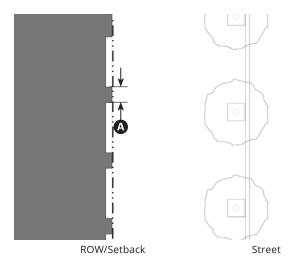

A. Description

The main facade of the building is at or near the front parcel line with at-grade entrance from the sidewalk. This type is intended for service, retail, or restaurant use and includes substantial glazing between the Shopfront base and the ground floor ceiling.

General Note: Photos on this page are illustrative, not regulatory.

Frontage Type Standards F.30.050: Shopfront

Key

--- ROW/ Parcel Line --- Setback Line

B. Required Elements		
Distance between Glazing and/or	2' max.	A
Door(s)		
Shopfront Base/Bulkhead	6" min.; 32" max.	B
Recessed/Cover, Depth	1.5' min.; if no	0
	recession minimum	
	cover of 2' required	

C. Additional Requirements

Entry doors must be recessed and/or an awning or canopy to offer shelter from the elements.

F.30.060 Frontage Type Standards

F.30.060 Gallery

Example of a Gallery

Example of a Gallery

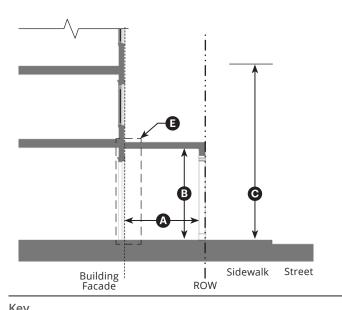

Example of a Gallery

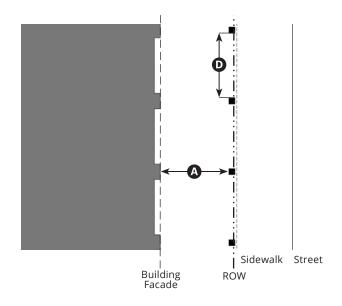

A. Description

The main facade of the building is set back from the front parcel line and an at-grade covered structure, articulated with colonnade or arches, covers an adjacent pedestrian area. The Gallery is allowed to be up to two stories. When used in non-residential settings, the Shopfront type is included; when used in residential settings, the Gallery can be combined with other frontage types, including, but not limited to, Stoops, Dooryards, and Courtyards.

General Note: Photos on this page are illustrative, not regulatory.

Frontage Type Standards F.30.060: Gallery

	ROW/ Parcel Line	Setback Line

B. Required Elements		
Depth ¹ , Clear	8' min.	A
Height, Clear	12' min.; 10' min.	B
	for upper story	
Height	2 stories max.	G
Column Spacing ²	8' min. clear	D

¹ Galleries are required to have a consistent depth across the entire front street and/or side street facade.

C. Additional Requirements

Galleries are required to be designed pursuant to
Section F.30.050 (Shopfront) and/or Section F.30.080
(Common Entry).

Galleries require Public Services approval of any encroachment into the ROW.

²May include street furniture, including, but not limited to, planters, benches, or low walls (48' max height), but may not encroach into the minimum clear depth.

F.30.070 Frontage Type Standards

F.30.070 Arcade

Example of an Arcade

Example of an Arcade

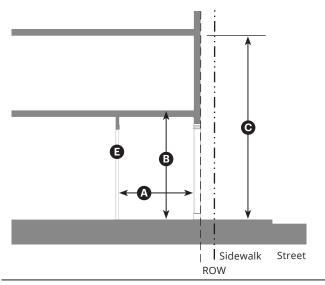

Example of an Arcade

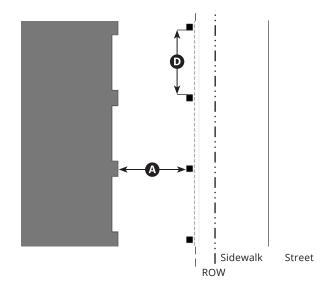

A. Description

The ground floor facade of the building is set back from the front parcel line to form a covered passageway. The surrounding structure is allowed to support occupiable space up to the setback line on upper floor(s). When used in non-residential settings, the recessed ground floor facade incorporates the Shopfront type; when used in residential settings, buildings with an Arcade can be combined with other frontage types, including, but not limited to, Courtyards, Stoops, and Dooryards.

General Note: Photos on this page are illustrative, not regulatory.

--- Setback Line

B. Required Elements		
Depth, Clear	8' min.	A
Height, Clear	12' min.	В
Height	2 story max.	G
Column Spacing¹	8' min. clear	O

¹ May include street furniture, including, but not limited to, planters, benches, or low walls (48' max height), but may not encroach into the minimum clear depth.

C. Additional Requirements

Arcades are required to be designed pursuant to Section F.30.050 (Shopfront) and/or Section F.30.080 (Common Entry).

Arcades require Public Services approval of any encroachment into the ROW.

F.30.080 Frontage Type Standards

F.30.080 Common Entry

Example of a Common Entry

Example of a Common Entry

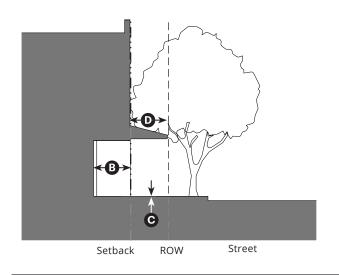

Example of a Common Entry into a Residential Multiplex

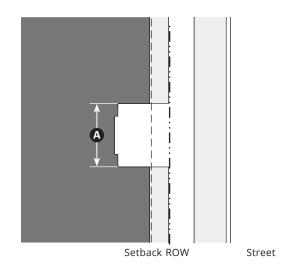

A. Description

The main facade of the building is near the front parcel line, with a recessed or covered entryway within the main facade, providing a defined transition between the sidewalk and the interior. The entryway leads to a lobby or foyer that provides interior access to units or offices.

General Note: Photos on this page are illustrative, not regulatory.

Frontage Type Standards F.30.080: Common Entry

Key

--- ROW/ Parcel Line --- Setback Line

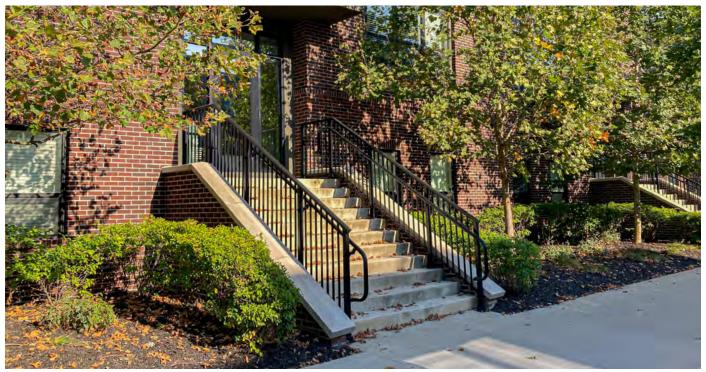

B. Size		
Width of Door/Window Frame	6' min.	A
Depth of Recessed Entry	6' max.	B
Finish Level above Sidewalk	0" min.	G
Cover, Depth	1.5' min.; if no	O
	recession minimum	
	cover of 2' required	

C. Miscellaneous

Entry doors must be recessed and/or provide an awning or canopy to offer shelter from the elements.

F.30.090 Frontage Type Standards

F.30.090 Stoop

Example of a Stoop with lightwell

Example of a Stoop

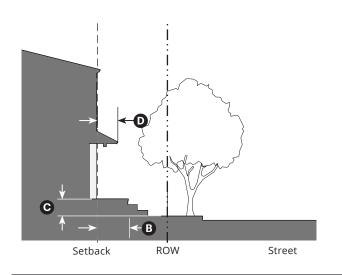

Example of a Stoop

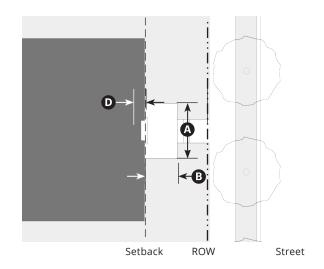

A. Description

The main facade of the building is near the front parcel line with steps to an elevated ground floor entry. The Stoop is elevated above the sidewalk to provide privacy along the sidewalk-facing rooms. Stairs or ramps from the Stoop lead directly to the sidewalk or are parallel to the sidewalk.

General Note: Photos on this page are illustrative, not regulatory.

Frontage Type Standards F.30.090: Stoop

Key

--- ROW/ Parcel Line --- Setback Line

B. Required Elements	
Width, Clear	3' min.; 10' max.
Depth, Clear	3' min.
Finish Level above Sidewalk	6" min.
Recessed/Cover, Depth	1.5' min.; if no
	recession minimum
	cover of 2' required

C. Additional Requirements

Entry doors are required to be covered or recessed to offer shelter from the elements.

When located within the front or side street facade zone, Stoops are required to face the street or open space.

F.30.100 Frontage Type Standards

F.30.100 Dooryard

Example of a Dooryard

Example of a Dooryard

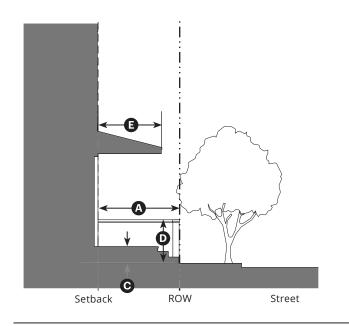

Example of a Dooryard

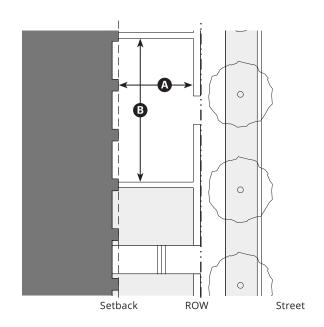

A. Description

The main facade or entrance of the building is set back from the front parcel line, which is defined by a low wall, hedge or fence, creating a small private area between the sidewalk and the entrance. Each Dooryard is separated from adjacent Dooryards by a low wall, hedge, or fence. The Dooryard is allowed to be raised or at grade.

General Note: Photos on this page are illustrative, not regulatory.

Frontage Type Standards F.30.100: Dooryard

Key

--- ROW/ Parcel Line --- Setback Line

B. Required Elements		
Depth, Clear	5' min.	A
Width, Clear	10' min.	B
Finish Level above Sidewalk	36" max.	G
Height of Dooryard Fence/	48" max.	O
Wall above Finish Level		
Cover, Depth	2' min.	3

C. Additional Requirements

Each Dooryard is required to provide access to only one ground floor entry.

Entry doors are required to be covered or recessed to offer shelter from the elements.

For non-residential uses, the Shopfront type is required in combination with the Dooryard.

A low wall, hedge, or fence is required at the sidewalk and between adjacent Dooryards.

F.30.110 Frontage Type Standards

F.30.110 Courtyard

Example of a residential Courtyard

Example of a Courtyard

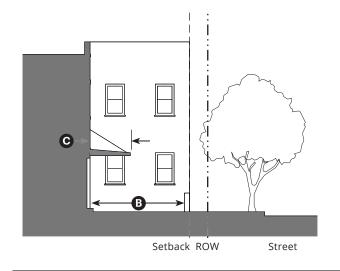

Example of a Corner Courtyard

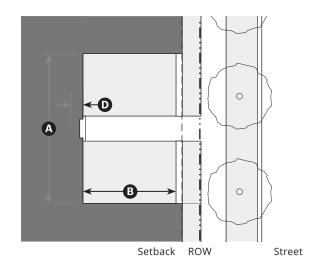

A. Description

The main facade of the building is at or near the front parcel line and a portion is set back into the parcel to create an entry court or shared garden space for housing, or an additional shopping or restaurant seating area within retail and service areas. The Courtyard frontage type may be combined with other additional frontage types, including, but not limited to, Stoops, Storefronts, Galleries and Arcades.

General Note: Photos on this page are illustrative, not regulatory.

Frontage Type Standards F.30.110: Courtyard

Key

---- ROW/ Parcel Line

--- Setback Line

B. Required Elements		
Width, Clear	25' min. if 3 stories or less; 35'	A
	min. if 4 or more stories	
Depth, Clear	15' min.; 50' max.	B
Along the ground floor	of the Courtyard, the	Θ
following are allowed to	o encroach a total of 1/3 of	
the Courtyard's width:	Stoop, Shopfront, Gallery, or	
Arcade.		
Cover, Depth	1.5' min.; if no recession	D
	minimum cover of 2' required	

Courtyard frontage type may count towards required facade zone standards of Division C of the zoning district.

C. Additional Requirements

Courtyards are allowed to be utilized to group several entries at a common elevation in compliance with the districts' ground floor finish level standards.

The Courtyard is open to the sky except for allowed encroachments (awnings, Stoops, Porches, terraces).

Entry doors must be recessed and/or provide an awning or canopy to provide shelter from the elements.

The Courtyard may include a fence, wall, or hedge along the front parcel line, which, if included, is required a fence or wall is required to have a maximum height of 48 inches.

A Courtyard may be shaped with three building facades or located at a corner and shaped with only two building facades.

F.30.120 Frontage Type Standards

F.30.120 Porch

Example of a Porch

Example of a Porch

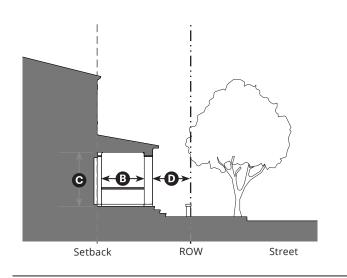

Example of a Porch

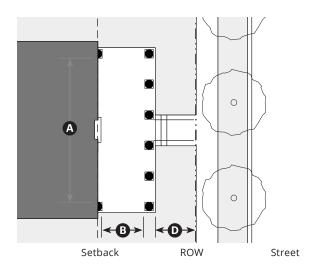

A. Description

The main facade of the building is set back from the front parcel line with a covered structure encroaching into the front setback. A Porch may also be located in the side setback with its narrow side facing the street. The Porch is allowed to be one or two stories, is open on at least two sides, with occupiable space located behind the building setback line.

General Note: Photos on this page are illustrative, not regulatory.

Frontage Type Standards F.30.120: Porch

Key

--- ROW/ Parcel Line --- Setback Line

B. Required Elements		
Width, Clear	10' min.	A
Depth, Clear	6' min.	B
Height, Clear	8' min.	Θ
Stories	2 story max.	
Distance between Porch Columns	3' min.	O
and ROW/Parcel Line		

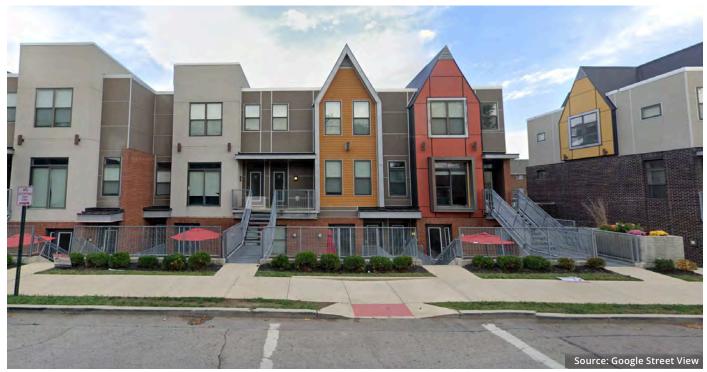

C. Additional Requirements

Porch is required to have a roof and be open on at least two sides.

Pedestrian access must be provided at either the front or the end side of the Porch.

F.30.130 Frontage Type Standards

F.30.130 Lightwell

Example of a Lightwell

Example of a Lightwell

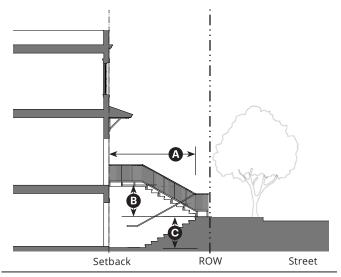

Example of a Lightwell

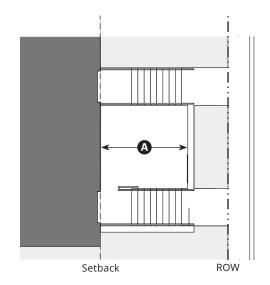

A. Description

The main facade of the building is setback from the front parcel line by a sunken Lightwell and may also include an elevated terrace or stoop. This type buffers residential, retail, or services uses from urban sidewalks.

General Note: Photos on this page are illustrative, not regulatory.

Frontage Type Standards F.30.130: Lightwell

Key

---- ROW/ Parcel Line

--- Setback Line

B. Required Elements		
Depth, Clear	5' min.	A
Height		
Landing (above Sidewalk)	6' max.	B
Lightwell (below Sidewalk)	6' max.	Θ

C. Additional Requirements

The minimum ground floor height required by Division D of the base zoning district applies to the first full story above grade.

This page intentionally left blank

Chapter F.40: Large Site Standards

F.40.010	Purpose
F.40.020	Applicability
F.40.030	Procedures for Large Sites
F.40.040	Design Standards for Large Sites

F.40.010 Purpose

The intent of this Section is to establish site design standards that guide the development of large development sites into a walkable pattern of development including new streets and blocks, pedestrian-oriented frontages, and/or public open spaces.

F.40.020 Applicability

- A. These standards are intended for application within mixed-use Zoning Districts, including Urban General 2 (UGN-2), Urban General 1 (UGN-1), Urban Center (UCT), Urban Core (UCR), Community Activity Center (CAC), and Regional Activity Center (RAC).
- B. These standards apply to development sites meeting the following size criteria:
 - 1. For development sites that have a continuous street frontage greater than or equal to 300' but are less than 10 acres in total size, the procedure in Division F.40.030.A.1 must be demonstrated as part of site plan review.
 - 2. For development sites greater than or equal to 10 acres, a Framework Plan is required prior to Site Plan Review. See procedure for Framework Plan in Division F.40.030.A.2.
- C. Applicants may, at their discretion, choose to apply a Framework Plan to development sites less than 10 acres.

F.40.030 Procedures for Large Sites

- A. There are two possible procedures for meeting the requirements of this Section, each is outlined below:
 - 1. **Site Plan for Large Development Sites.** This process is required for development sites that have a continuous street frontage greater than or equal to 300' but are less than 10 acres in total size. See Table F.40.030.B for the required procedure and example site.
 - a. Sites must provide a break in the street frontage per the standards in Table F.40.030.A, through one of the following:
 - i. Pedestrian Circulation per the standards of F.40.040.B(6);
 - ii. Open Space that meets the requirements of Table F.40.040.B; or
 - iii. Street (private or public) per requirements of Department of Public Service.

Table F.40.030.A: Large Site Building Frontage Standards		
Zone	Building Frontage	
CAC, UGN-1, UGN-2	300' max. length	
RAC, UCT, UCR	500' max. length	

- b. Front, side, and rear parcel lines and applicable setbacks must be determined by the adjacency to the identified pedestrian circulation, open space, and/or street.
- c. Proposed site plans are reviewed for compliance with the standards of this chapter in addition to the base Zoning District standard.
- 2. **Framework Plan.** This process is required for sites equal to or greater than 10 acres. See Table F.40.030.C for the required procedure and example site.
 - a. In cases where a larger development site is to be divided into smaller blocks with all internal streets and open space being private, a Framework Plan must be developed.
 - b. Proposed Framework Plans are reviewed by the City for compliance with these standards.
 - c. Approved Framework Plans are registered on the City's Zoning Map and guide subsequent steps of large site development.
 - d. Framework Plans may be amended using the same process outlined for their creation.
 - e. In cases where a larger development site incorporates public streets, the Framework Plan must be consistent with any associated subdivision plat.

Table F.40.030.B: Procedure for Site Plan for Development Sites < 10 Acres

Step 1: Identify the Development Site

The development site is the entire site within the scope of the development, which may include one or more parcels. The overall development site is delineated through a survey and must identify the existing public realm (primary streets).

Sites that do not support a building frontage greater than the maximum allowed per Table F.40.030.A are not required to extend the public realm.

< 300' for UGN-1, UGN-2, or CAC
< 500' for UCT, UCR, or RAC

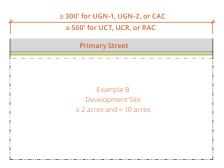

Primary Street

Example A

Development Site

≥ 2 acres and < 10 acres

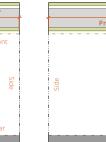

If Street Frontage is greater than or equal to the maximum allowed per Table F.40.030.A then a Site Plan is required to apply the following steps.

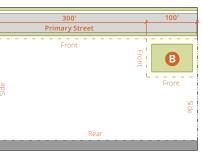

Step 2: Extend the Public Realm and Determine Parcel Orientation

The public realm must be extended into the development site using a pedestrian connection per Division F.40.040.B.6, open space per Division F.40.040.C, or new street between buildings pursuant to Division F.40.040.B.3 at intervals no greater than the street frontage maximum of Table F.40.040.A. All new streets and/or open space should be indicated on a site plan. Any parcel line adjacent to a pedestrian circulation, open space, or new street will be treated as a front or side street parcel line and is subject to all applicable standards of the base zoning district.

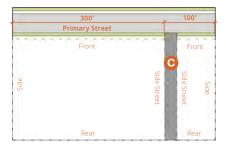

Example: (A) Pedestrian Connection

Example: **(B)** Open Space

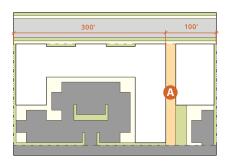

Example: 😉 New Street

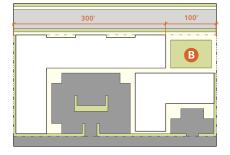

Step 3: Place Buildings and Provide Frontage Types

Locate buildings and parking per all zoning district standards. Buildings must provide frontage types for building entrances that are adjacent to the public realm and apply all standards applicable to a front or side street facade.

Example: (A) Pedestrian Connection

Example: **(B)** Open Space

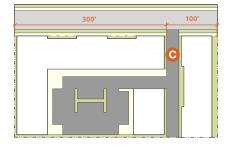

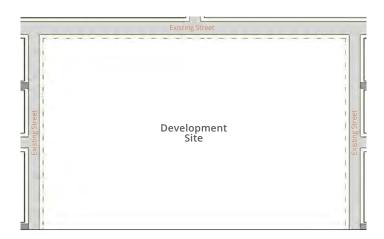

Table F.40.030.C: Procedure for Framework Plan for Development Sites ≥ 10 Acres

Steps

Example Site (equal to or greater than 10 acres)

Step 1: Identify the Development Site

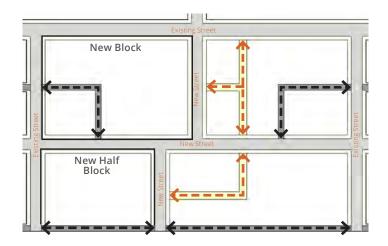

The development site is the entire site within the scope of the development, which may include one or more parcels. The overall development site is delineated through a survey and must identify the existing public realm including indication of the primary street(s).

Step 2: Identify and Extend the Public Realm to Create New Blocks

Extend the public realm into the development site to create new blocks per the standards of Division F.40.040.A. The Framework plan must depict all streets, internal circulation or alleys, sidewalks, open spaces, and multi-use trails at the block level.

- --> Pedestrian Connection
- **--** → Alley Connection

Step 3: Locate Open Space

On the Framework Plan, indicate one or more common open space(s) that meet the standards of Division F.40.040.C.

A Open Space

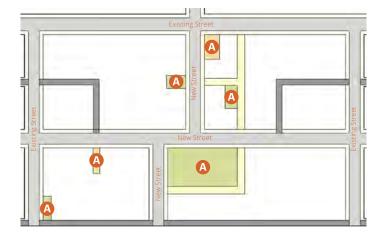

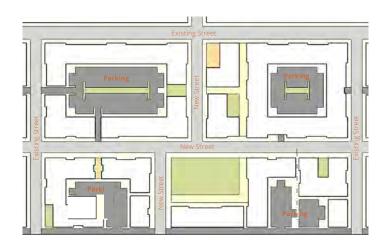

Table F.40.030.C: Procedure for Framework Plan for Development Sites ≥ 10 Acres

Steps

Example Site (equal to or greater than 10 acres)

Step 4: Place Buildings per District Standards

Locate buildings and parking per all standards in Chapter E.20 (Mixed-Use Zoning Districts) for the base zoning district. Development of each block may occur in phases. Any parcel line adjacent to a pedestrian circulation, open space, or new street will be treated as a front or side street parcel line. On corner parcels, the building can front either street. Buildings must orient onto the public realm and provide at least one frontage type. Pursuant to Division G of the zoning district, on-site parking, if provided, must be located behind buildings, at the rear of each parcel, and/or screened from the public realm.

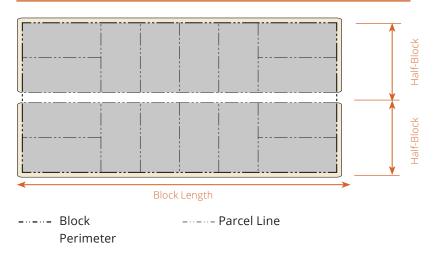

F.40.040 Design Standards for Large Sites

- A. **Block Configuration**. Development sites greater than 10 acres must create a series of blocks and streets to break down the site into a walkable pattern. Blocks represent the largest organizing element of the development site. Blocks may contain multiple parcels and/or buildings.
 - 1. Framework plans must depict the configuration of blocks.
 - 2. Blocks may be formed by a combination of streets, natural features, including, but not limited to, rivers, streams, and wooded preserves, large designated open space per Division F.40.040.C or city designation, or other barriers such as railroads.
 - 3. To reinforce the pedestrian scale, individual block lengths and the total block perimeter are required to comply with the standards in Table F.40.040.A.
 - 4. Blocks may be uniquely shaped provided that the standards in Table F.40.040.A are met.

Table F.40.040.A: Block Size Standards		
Block Length	Block Perimeter	Depth of Attached Half-Block(s) ¹
500' max.	2,000' max.	250' max.

¹ Distance from street or public ROW to shared property line.

- B. **Streets and Connectivity.** Existing and/or proposed streets, together with open spaces, are required to comprise a contiguous pedestrian network throughout large development sites and the adjacent public ROW.
 - 1. Framework plans must depict all blocks, open space, public and private streets, and sidewalks provided as part of the street networks. Applicants may also choose to identify any internal pedestrian connections, paths, or alleys that have been determined at the time of the framework plan submittal.
 - 2. Alleys and drive aisles are not considered streets or components of the public realm for the purpose of these standards and are allowed only along the rear or side of a parcel.

- 3. Parking, streets, sidewalks, and paths must comply with City dimensional standards as outlined in CC 905, CC 3312, and CC 4307.
- 4. New dead end and cul-de-sac streets are not allowed, although stub streets to adjacent parcels for the purposes of future connectivity are allowed and should be identified.
- 5. Trail systems identified within the development site should connect to existing or programmed trails adjacent to the site.
- 6. Pedestrian circulation may be provided through a Pedestrian Connection that meets the following standards:
 - a. 20 feet minimum and 36 feet maximum width clear between building facades and/or ROW.
 - b. If a primary street frontage exists along the parcel, a pedestrian connection may be considered a side street for all applicable standards of the base zoning district.

C. Open Space

- 1. On large sites equal to or greater than 10 acres, a minimum of 5 percent of the gross development area (minus existing easements) is required to be set aside as open space.
 - a. Required setbacks do not count toward the minimum open space area requirement.
 - b. The required 5 percent open space for Large Sites is in addition to the amount of open space required by the base district per each dwelling unit.
 - c. Regulated floodway, stream corridor protection zones, and stormwater features, including, but not limited to, ponds and swales do not count toward the minimum open space area requirement.
 - d. Patios, yards, and other areas meant for the benefit of a specific unit or building rather than the broader development site do not count toward the minimum open space area requirement.
 - e. Dog parks, swimming pools, and volleyball sand pits do not count toward the minimum open space requirement.
 - f. Development sites must include one or more of the open space types listed in Table F.40.040.B.
- 2. Fences up to 42 inches tall are allowed to be installed along the perimeter of parks. Walls greater than 36 inches in height are not allowed. Chain link fencing is prohibited
- 3. The facade of buildings that abut or face an open space type are required to incorporate at least one frontage type.

Table F.40.040.B: Open Space Types

Description

Green. A landscaped focal point for passive recreation or programmed use.

Standards

- a. Minimum of 5,000 square feet in size.
- b. No side narrower than 50 feet.
- c. At least 50 percent of the area is required to be landscaped with trees and plantings.
- d. At least one entire side of the open space must abut and be accessible from the street or sidewalk network.

Plaza. A hardscaped focal point used primarily for civic purposes and commercial activities.

- e. Minimum of 2,500 square feet.
- f. No side narrower than 30 feet.
- g. At least 50 percent of the area is required to be hardscaped.
- h. At least two sides of the open space must abut and be accessible from the street or sidewalk network.

Pedestrian Passage. A pedestrian pathway that extends from a public sidewalk or large site open space. The pathway is lined by non-residential shopfronts and/or residential ground floors and pedestrian entries as required by the district.

- i. Min. 20 feet from facade to facade or from facade to side parcel line.
- j. 150 feet max.; unlimited if extending from one public sidewalk or large site open space to another.
- k. No more than 25 percent of the passage surface consists of asphalt or untextured concrete; and,
- I. Seating is provided within or adjacent to the passage at 100-foot maximum intervals.

Chapter G.20: General Site Development Standards

Sections:

G.20.010	Purpose and Applicability

G.20.020 Lighting
G.20.030 Landscaping
G.20.040 Screening

G.20.050 Graphic Standards

G.20.010 Purpose and Applicability

This Chapter provides standards which apply to all development regulated in this Title, including standards for lighting, landscaping, and screening.

G.20.020 Lighting

Lighting must conform to the following standards.

- A. Light fixtures must not exceed 18 feet in height from grade.
 - 1. Light fixtures within the CAC and RAC Districts may have a maximum height of 28 feet from grade, except those fixtures within 100 feet of a Residential District may not exceed 18 feet in height.
- B. Lights must have fully shielded, recessed lamps directed away from abutting properties and directed downward to prevent glare and shine above the horizontal plane.
- C. Canopy lighting must be recessed within the canopy or use an opaque shield around the sides of the light.
- D. Globe style fixtures must be shielded to prevent upward lighting and must not exceed 14 feet.
- E. Any parking lot containing 10 or more parking spaces, which is used during non-daylight hours, must be illuminated during such hours to provide visibility for motorists, pedestrians, and bicyclists.
- F. For aesthetic compatibility, light fixtures in parking lots must be of the same or similar type and color.
- G. Light fixtures must be placed in parking lot islands or solid bases to protect both lights and vehicles from possible damage.

H. Decorative/Architectural Lighting

- 1. Accent lighting, down-lighting and up-lighting may be used on buildings, so long as the lighting does not shine beyond the extents of the building walls, and the light source is concealed from view.
- 2. String lighting may be used to illuminate patios, porches, and walkways.

G.20.030 Landscaping

Landscaping must conform to the following standards.

A. Unit shade trees are required in the CAC and RAC Districts at a rate of one tree per 10 dwelling units, or fraction thereof, and may be located anywhere on the site. Unit shade trees must be deciduous, with a minimum two-inch caliper at the time of planting.

B. Parking Lot Shade Trees

- 1. Parking lot shade trees are required at a rate of one tree per 10 parking surface parking spaces, or fraction thereof, and must be dispersed proportionately throughout the parking areas that they serve.
- 2. Surface parking lots with 20 parking spaces or less may locate the shade trees anywhere within the parking lot or along its immediate perimeter.
- 3. Surface parking lots with 21 or more parking spaces must provide at least 50 percent of the required parking lot shade trees (rounded up) on islands or peninsulas within the parking lot area. The remaining parking lot shade trees may be located within the parking lot or along its immediate perimeter.
- 4. Parking lot shade trees must be deciduous, with a minimum two-inch caliper at the time of planting.
- 5. Parking lot shade trees must be provided a minimum soil radius of four feet and a minimum soil area of 145 square feet, with average soil depths greater than or equal to three feet.
- 6. Planting beds for parking lot shade trees must be arranged and constructed with suitable curbing materials so as to minimize damage to tree trunks and roots from vehicles, pedestrians and parking lot maintenance.

G.20.040 Screening

Screening must conform to the following standards.

A. Headlight Screening

- 1. Headlight screening must be provided between all parking areas (parking spaces, maneuvering areas, and drive aisles) and adjacent streets, open spaces, and neighboring Residential Zoning Districts within 80 feet.
 - a. Along streets and open spaces, headlight screening must consist of a combination of landscape shrubs and a metal tube fence or masonry wall. Chain link and wood fencing are prohibited.
 - b. Screening between parking areas and neighboring Residential Zoning Districts can either consist of a combination of landscape shrubs with metal tube fencing or masonry walls, or a wood privacy fence. Chain link fencing is prohibited.
- 2. Headlight screening must be located within a landscaped area with a minimum width of four feet.
- 3. Headlight screening must provide a minimum height of 36 inches and a minimum year round opacity of 75 percent. Along streets and open spaces, headlight screening must not exceed a height of 48 inches.

B. Dumpster Screening

- 1. Dumpsters (including compactors) must be located within enclosures that provide 100 percent opaque screening on all sides.
- 2. Screening must be provided to at least the height of the dumpster.
- 3. Screening may be provided using any combination of fencing, walls, landscaping, and adjacent building facades. Chain link fencing is prohibited.
- 4. Dumpster enclosures are subject to building setback requirements and may not be located between a principal building and an adjacent front or side street.

C. Screening of Mechanical and Utility Equipment

- All heating, ventilating, air conditioning and other building mechanical systems and equipment
 or other utility hardware on the roof of a building must be screened to the height of the
 equipment to prevent the equipment from being visible from any adjacent street, public space,
 or Residential Zoning District. Decorative cornices may be used for screening. The material
 used to screen the equipment must be consistent with those materials and colors used on the
 building.
- 2. Mechanical or other utility equipment on the ground must be fully screened to the height of the equipment by wall, fence, landscape material or a combination thereof to prevent the equipment from being visible from any adjacent street, open space, or Residential Zoning District. When providing fencing and/or walls to screen equipment, the screening must use materials and colors consistent with those used on the nearest building. Chain link fencing is prohibited to be used for screening. Whenever live plants are installed, alone or in combination with other materials for the purposes of this Section, the plants must be selected to achieve the height equal to the height of the equipment, and a density not less than 75 percent opacity within three years of installation.
- 3. Equipment directly related to the collection of solar energy, along with hot boxes, meter pits, transformer boxes, and EV charging dispensers are not required to be screened.

G.20.050 Graphic Standards

Graphics must conform to the following standards.

- A. Except as provided in this section, graphics within the Mixed-Use Districts must comply with those standards provided in Chapter 3375 (General Provisions) and Chapter 3377 (On-Premises Signs in Institutional, Commercial and Manufacturing Districts).
- B. In addition to signs prohibited in Chapter 3375 (General Provisions), the following types of signs are not allowed: off-premises signs, billboards, signs with flashing lights or bare bulbs, rotating signs, pole signs, automatic changeable copy signs, bench signs, and roof signs.
- C. Ground Sign.
 - 1. Only one ground sign is allowed per development parcel.
 - 2. Only a monument type ground sign is allowed.
 - 3. The sign base must be integral to the overall sign design and compliment the design of the building and landscape.

- 4. The setback for a ground sign must be equal to the District building setback standard or fifteen (15) feet, whichever is less.
- 5. The height of a ground sign must not exceed six feet above grade in the Urban General 1, Urban General 2, Urban Center, and Urban Core Districts.
- 6. The height of a ground sign must not exceed 12 feet above grade in the Community Activity and Regional Activity Districts.
- 7. When indirectly lighting a ground sign, the light source must be screened from motorist view.
- D. Menu boards must only be allowed as an accessory to a pickup unit and must be subject to the following standards:
 - 1. Each order point may provide an aggregate area of up to 30 square feet for menu boards.
 - 2. Menu boards must not be located between the building and a street right-of-way.
 - 3. Menu boards must not be located within 50 feet of a Residential Zoning District.
 - 4. Freestanding menu boards must not exceed a height of six feet from grade.
 - 5. Menu boards must not be subject to this overlay's restrictions regarding automatic changeable copy. However, images and messages displayed must be static, and the transition from one static display to another must be instantaneous to the human eye without any transition effects (e.g., wipes, fades, or other special effects).

Article G:

Chapter G.30. Height Bonus Program

G.30.010 Purpose and Intent

This Chapter is intended to promote the affordable housing policy priorities of the City of Columbus through the provision of additional development capacity in the form of increased building heights beyond the limit established in the base zoning district.

G.30.020 Definitions

"Affordable Housing Height Bonus Applicant" A person authorized to transact business in Ohio that intends on building a Development Project as a Project Sponsor, in accordance with the City's Community Reinvestment Area ("CRA") Program and O.R.C. 5321.19(B), that has submitted an application seeking a Height Bonus as provided for in this Chapter.

"Affordable Housing Height Bonus Program Participant" An Affordable Housing Height Bonus Applicant that has been approved by both the Department of Development and Department of Building and Zoning Services for the Height Bonus described in this Chapter.

"Development Projects" Has the same meaning as applied in Chapter 4565.

"Director" Director of the Department of Building and Zoning Services or applicable designee.

"Height Bonus" Additional stories allowed for buildings located in specified Zoning Districts in the 2024 Zoning Code in conjunction with a commitment to provide for affordable housing in accordance with the City's CRA Program.

For additional definitions of terms used in this Chapter, see Chapter 4565 (Affordable Housing and Community Reinvestment Area Incentive Policy).

G.30.030 Applicability

- A. A Height Bonus is available to an Affordable Housing Height Bonus Applicant that agrees to be bound by the affordability requirements described in the City CRA Program.
- B. The rules governing the Citywide CRA program related to this Chapter are found in Chapter 4565 and applicable Rules and Regulations of the Director of the Department of Development.
- C. Nothing in this Chapter will limit the applicability of any provision in Chapter 4565 or Sections 3735.65-.70 of the Ohio Revised Code.
- D. Participation in the Height Bonus Program is voluntary; Project Sponsors approved under Chapter 4565 are not be required to seek the Height Bonus.
- E. The Height Bonus Program will only be applied in conjunction with the City's CRA Program as established in Chapter 4565, except for provisions relating to a fee-in-lieu, in accordance with Sections 3735.65-.70 of the Ohio Revised Code and as further provided for in Rules and Regulations promulgated by the Director of the Department of Development.
- F. The property for which the Height Bonus is requested must be located within a zoning district included in Table 1 of this Chapter.

G.30.040 Review Authority

- A. The Department of Development has the authority and responsibility for implementing the affordable housing requirements and administering the City CRA Program standards as described in Chapter 4565 and as further provided for in Rules and Regulations of the Director of the Department of Development.
- B. The Department of Building and Zoning Services will administer the Height Bonus Program and issue all applicable certificates of zoning clearance and building permits.
- C. In exercising authority under this Chapter, the Director may consult with other City departments regarding issues within such departments' areas of expertise and will, with respect to the affordable housing requirements and CRA standards under Chapter 4565 or other applicable law, cooperate with the Department of Development.

G.30.050 General Provisions.

- A. The Director is authorized to promulgate Rules and Regulations to establish a process to issue conditional construction permits granting a Height Bonus to Affordable Housing Height Bonus Applicants.
- B. An Affordable Housing Height Bonus Applicant shall make application for a Height Bonus on a form approved by the Director.

G.30.051 Affordable Housing Height Bonus

A. The maximum Height Bonus allowed for Development Projects is provided for in Table 1:

Table 1: Allowed Affordable Height Bonus by District

District Name	Height Bonus ¹
Regional Activity Center (RAC)	3 stories
Community Activity Center	2 stories
Urban Center (UCT) 2 stories	
Urban Core (UCR) 4 stories	
A bonus story shall not exceed twelve (12) feet;	

G.30.070 Application Review Procedures.

The Director may grant a Height Bonus subject to the following procedures:

- A. An Affordable Housing Height Bonus Applicant submits an application form for a Height Bonus along with the applicant's proposed building and site plan.
- B. The Director will review all proposed building and site plans under its normal review authority for any new proposed developments within the City of Columbus.
- C. Upon its review of initial building and site plans, the Director will issue a conditional construction permit granting the Height Bonus for Affordable Housing Height Bonus Applicants that are determined to provisionally meet the applicability provisions of this Chapter.
- D. A conditional construction permit will trigger any applicable design review required under Title 31 or Title 33 in accordance with the 2024 Zoning Code.
- E. Upon issuance of a conditional construction permit, and issuance of a certificate of appropriateness by any applicable design review board, the Director of the Department of Development, or their designees, will review the Development Project in accordance with the requirements of Chapter 4565, Department of Development Director's Rules, or other applicable law, for CRA eligibility with an affordable housing component.

- F. If the Development Project is approved by the Director of the Department of Development for inclusion in the CRA Program, the Affordable Housing Height Bonus Applicant must enter into a CRA agreement in accordance with the requirements of Chapter 4565, Department of Development Director's Rules, or other applicable law.
- G. After the CRA agreement has been executed, the Department of Building and Zoning Services shall review and approve any additional certificates of zoning clearance or construction permits as required.
- H. Upon construction, the Department of Building and Zoning Services must review any additional permits, conduct a final inspection, and issue a certificate of occupancy in accordance with Title 41, the Columbus Building Code.
- Upon the issuance of a final certificate of occupancy and all completed inspections by the Department of Building and Zoning Services, the Department of Development shall conduct a final review of the Development Project to ensure compliance with Chapter 4565, Department of Development Director's Rules, or other applicable law.
- J. If found to be in compliance with applicable CRA Program requirements, the applicant will be accepted into the Affordable Housing Height Bonus Program.

G.30.080 Monitoring and Enforcement

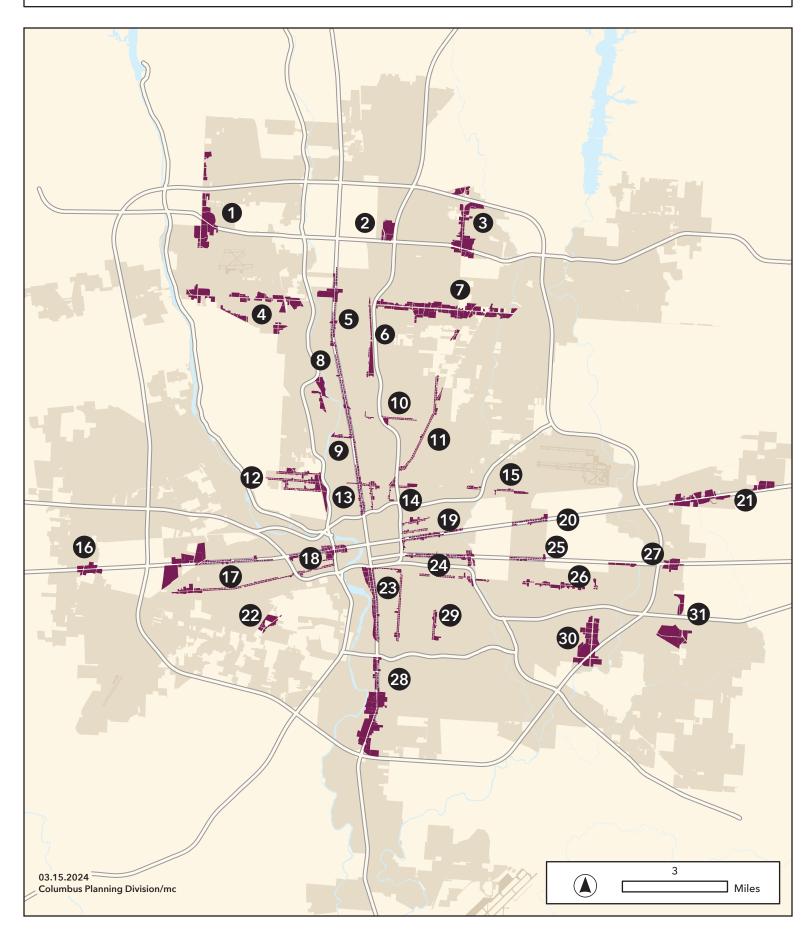

A. Monitoring and Annual Report.

The Affordable Housing Height Bonus Program Participant shall comply with all monitoring and reporting requirements of the City CRA Program as outlined in Chapter 4565, Department of Development Director's Rules, or other applicable law.

B. Noncompliance.

Failure by the Affordable Height Bonus Program Participant to comply with the provisions of the City CRA Program as described in Chapter 4565, Department of Development Director's Rules, or other applicable law will result in a determination of noncompliance. Properties deemed to be noncompliant will be subject to applicable penalties, including revocation of the tax abatement provided for in Chapter 4565 or other applicable law.
